OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, D. C., October 6, 1874.

To the Trustees of Public Schools, &c.:

GENTLEMEN: I am directed to inform you that George F. McLellan, esq., tendered his resignation as a Trustee of Public Schools, &c., resident of Washington, which was accepted the 5th instant; and that Dr. R. B. Detrick was, on the same day, appointed to the vacancy thus made.

GENTS: In reply to a communication of the 20th ult., containing a proposition to regulate the pay of janitors of school buildings, I am directed to send you the inclosed copy of the opinion of the Attorney upon the subject.

Very respectfully,

WM. TINDALL,

ATTORNEY'S OFFICE, DISTRICT OF COLUMBIA,
Washington, October 2, 1874.

To the Commissioners of the District of Columbia:

Under the reference made to me on the 28th ultimo of two communications from Mr. Geo. F. McLellan, President of the Board of Trustees of the Public Schools, my opinion is requested "as to the authority of the Commissioners to raise the pay of janitors of school buildings."

The second section of the act approved June 20, 1874, provides that "the compensation of all officers and employees, except teachers in the Public Schools and officers and employees in the Fire Department shall be reduced twenty per centum per annum." This provision, in my judgment, subjects the compensation of janitors of school buildings to the reduction above mentioned.

I am aware of no legal grounds which exempt janitors from the operation of this enactment; and if it applies to their compensation, the Commissioners have no authority to increase their compensation beyond the sum to which the law reduces it.

Very respectfully,

EDWIN L. STANTON, *Attorney.*

The whole number of pupils enrolled in the Public Schools of the District of Columbia, for the school year ending August 31, 1874, was as follows: White, 11,512; colored, 6,327; total, 17,839. The whole number of teachers employed, was 276. The average number of pupils enrolled in private schools during the same period was 6,993. Estimated number of pupils that will be enrolled in the Public Schools during the school year ending August 31, 1875, 19,000. The number of youth of school age (6 to 17 years inclusive) in the District of Columbia, according to the United States Census of 1870, was: White, 21,177; colored, 10,494; total, 31,671.

In 1864 the whole number of pupils enrolled in all the Public Schools of the District of Columbia was about 5,000, and of this number the colored pupils did not exceed 100.

About 4,000 children are now compelled to attend schools in rented rooms, most of which are not well adapted to the purpose, and many are badly lighted and ventilated, damp and unhealthy. For these rooms, 68 in number, an annual rent of about \$20,000 is paid, and, in addition, a large sum is expended in fitting up and repairing them. To purchase sites and erect suitable, plain, but substantial buildings to meet the present wants of the public schools of the District, will require an expenditure of \$500,000.

The reasons for asking Congress to aid in establishing and supporting a system of public schools for the District of Columbia may be briefly stated as follows:

1. About one-third of the school population is colored, composed largely of the "wards of the nation" who have come into the District since the beginning of the war. They add but little if anything to the school revenues.

2. About thirty per cent. of the enrollment in the white schools is composed of children whose parents or guardians are in the employ of the United States Government, and the school revenues receive but little benefit from these residents.

3. The United States Government is the owner of about one-half of all the real estate in the District of Columbia.

4. The Government has from time to time made most liberal donations of public lands to aid in establishing and sustaining common schools in all the Territories as they became States. The District of Columbia, the permanent seat of the Government, over which Congress exercises exclusive legislation in all cases whatsoever, has had no share in the distribution of these educational benefactions.

In considering the future government of the schools the committee has not lost sight of their present condition. There are now in the District, white and colored, city and country schools, and these conditions must be regarded in forming an efficient organization for their management. The committee therefore recommend a general board of education for the District of Columbia, which shall exercise a general and uniform control over all the schools, and have power to create such school districts and subordinate boards of trustees to attend to the local duties of these districts as the conditions above alluded to may require.

The following outline of such an organization is therefore suggested: A board of education for the District of Columbia, to consist of seven members, to be appointed by the executive of said District, and be divided into three classes, the first and second classes to consist of two members each, and the third class of three members, one class to be appointed each year, and the term of office to be three years. This board of education to have full control of all public-school property, and of all funds collected or appropriated for public schools in the District of Columbia. To have power to appoint a secretary, at a salary of not exceeding fifteen hundred dollars per annum, who, in addition to his other duties, shall make the disbursements, and keep the accounts of the board: To continue and establish schools for the free education of all youth of school age resident within the District of Columbia: To fix the number and salaries of teachers and decide upon their qualifications, and to confirm the appointments of all teachers and remove them at pleasure: To fix the number and salaries of janitors and other employees: To make proper rules and regulations for the government of the schools, prescribe a course of study and adopt text books for the same: To appoint superintendents of schools, one of whom shall be assigned to the colored schools of Washington and Georgetown: To divide the District of Columbia into school districts, the colored schools of Washington and Georgetown forming one district, and to appoint in each district officers to be designated trustees, who shall have charge of the schools in their respective districts, and perform such duties as may be prescribed by the board: To cause to be taken,

once in two years, an enumeration of all unmarried youth, noting race, sex, and age of each youth, between six and twenty-one years of age, inclusive. It should be the duty of the board of education to disburse all funds appropriated for the use of the public schools of the District of Columbia, so that the schools for colored children shall receive "such a proportionate part of all moneys received or expended for public school or educational purposes, including the cost of sites, buildings, furniture, books, and all other expenditures on account of schools, as the colored children between the ages of six and sixteen years, inclusive, in the District of Columbia bear to the whole number of children, white and colored, between the same ages," and no discrimination shall be made in respect to the time when payments to the white and the colored schools shall be made: To annually make to the executive of the District of Columbia a full report of their proceedings for the previous year, rendering a full account of the condition of the schools, and the expenditures for the same, and giving an estimate in detail of the amount of funds required during the next succeeding school year, and to furnish such information as may be required from time to time by the executive of the District.

Mr. LLOYD offered the following as a substitute; and there being no second to the proposition, it was not considered:

Recommended that the executive of the District of Columbia divide off said District into school districts, and that trustees be appointed to each of said school districts, and that the colored schools of the District of Columbia be made and constituted one of said school districts. That there shall be organized a board of education, to be composed of one member from each school district, to be selected by a majority vote of each of the respective school districts, &c.

The report of the special committee was then adopted.
On motion, the Board then adjourned.

REGULAR STATED MEETING.

FRANKLIN SCHOOL BUILDING,
Washington, January 12, 1875.

The Board of Trustees of Public Schools in and for the District of Columbia met on the above date; the president, W. W. Curtis, esq., in the chair; John H. Brooks, secretary.

Present: Messrs. French, Dyer, Hart, Ferguson, Detrick, Champlin, Packard Lloyd, Moffatt, Johnson, Ryder, and Smith.

On motion, the reading of the minutes was dispensed with, and they were approved as printed.

The secretary presented a communication from Mrs. F. A. Springer, complaining of the conduct of principal R. M. McKee, of the First District.

On motion and by request of Mr. HART, a member of the Sub-Board of said District, the communication was referred to a special committee, composed of Messrs. Champlin, Detrick, and French, for investigation.

The secretary also presented, for the information of the Board, the following communication addressed to the honorable Commissioners of the District of Columbia, and the opinion of the Attorney of the District of Columbia thereon, which was ordered to be printed in the minutes:

OFFICE SUB-BOARD OF TRUSTEES OF COLORED SCHOOLS
OF WASHINGTON AND GEORGETOWN,
Sumner Building, Washington, August 25, 1874.

To the Honorable the Commissioners of the District of Columbia:

GENTLEMEN: We have the honor most respectfully to call your attention to the act of Congress approved July 23d, 1866, which provides "that the cities of Washington and Georgetown shall pay to the Trustees of Colored Schools such a proportionate part of all moneys received or expended for school or educational purposes, including the cost of sites, buildings, furniture, and books, and all other expenditures on account of schools, as the colored children between the ages of six and seventeen years in the respective cities bear to the whole number of children, white and colored, between the same ages; the money shall be payable on the first day of October of each year, and, if not then paid, interest at the rate of 10 per cent. per annum may be demanded;" and the act of the Legislative Assembly of the District of Columbia entitled "An act to secure the simultaneous payment of dues to the white and colored schools of Washington and Georgetown," approved June 23, 1873, for the purpose of informing you that the sum of fifty-three thousand dollars has been expended for the erection of a public school building in the city of Georgetown, and that the proportion due the colored schools of \$30,000 of the above amount has not been allowed or paid, in accordance with the acts above cited.

It is necessary to a correct understanding of this question to give a brief antecedent legislative history of the act authorizing the erection of the building, and the borrowing of money to pay for the same. The great importance of securing promptly, when due, the proportionate amount of all moneys expended for educational purposes in the cities of Washington and Georgetown, due the colored schools of said cities, was by the trustees of colored schools clearly seen from the start, and it was always a matter for serious consideration, and the cause of frequent and extended correspondence with the late municipal authorities of Washington and Georgetown, as well as the late government of the District of Columbia, and in several cases the occasion of special legislation by Congress and the late Legislative Assembly of the District of Columbia.

Upon the reporting of the bill authorizing the erection of a building for the public schools of Georgetown, by a committee of the late Council, Mr. Brooks, a member of that body, inquired of the chairman "what provisions were made in the bill for the prompt payment of the amounts that would become due the colored schools under the requirements of the act of Congress of July 23d, 1866?" The chairman of the committee stated "that the matter of paying any sums that might become due the colored schools had not been considered." Whereupon Mr. Brooks made a statement showing that the act of Congress was imperative upon the authorities of the District of Columbia, as the successor to the late municipal governments of the cities of Washington and Georgetown, to pay the proportionate amounts due the colored schools. Dr. Reily, the member of the Council from Georgetown, said, in reply to Mr. Brooks, "that the principal amount of the funds necessary to erect the building would be borrowed from the trustees of the Linthicum fund, and that the amount so borrowed would be regarded as a '*private fund*,' of which the colored schools would not be entitled to any proportion or part. That the funds so borrowed being regarded as '*private*,' the colored schools must wait until a tax was levied and collected to pay the debt, when the money would be regarded as '*public money*,' and their proportion would be followed and paid."

Mr. Brooks replied, that as the money was to be borrowed by the District of Columbia, through its agents and servants, the trustees of the public schools of Georgetown, and as public property was to be mortgaged to secure payment of the money borrowed, as well as a tax levied and collected for the payment of the debt, he (Mr. Brooks) could not regard money so borrowed as "*private funds*;" if the money borrowed was to be regarded as "*private funds*" where was the necessity for legislative action? How could the Council authorize public property to be mortgaged to secure a private debt? or how could the proper accounting officer of the Government take up a private account upon his books? In his (Mr. Brooks) opinion, money borrowed by authority of law, by the Trustees of the Public Schools, who were acting as the agents of the government of the District of Columbia, was in every sense to be regarded as "*public funds*," and that in its expenditure for the erection of a public school building, the colored schools were clearly entitled to their proportion under the act of Congress of July 23d, 1866. If the views of the gentleman who held that money so borrowed was "*private funds*" were correct, then the District of Columbia could borrow one million dollars and erect public school buildings for the accommodation of the white children at once, and defer the payment of the proportion due the colored schools until the money was collected from the people and paid into the treasury, which might be in one or twenty years. Such a construction of the act of Congress which contemplates placing the schools of the white and colored children upon an equal footing, would enable the authorities of the District of Columbia to prevent the education of the colored children of the present generation by denying them school accommodation during the period at which (between the ages of 6 and 17 years) they can be admitted into these schools according to law. The bill, at the request of the chairman, was recommitted, and was not again reported in the same shape. After the bill had remained in the hands of the committee for some length of time, a delegation of the Trustees, with ex-Governor Cook, waited upon Mr. Brooks and other members of the Council, at their Chamber, and urged the same views as had been expressed by Dr. Reily in the Council, and asked that the bill be again reported and passed, but the opposition of Mr. Brooks and others prevented any action being taken. Finally, near the end of the session, a committee of Trustees, with the contractor and Superintendent J. O. Wilson, waited upon Mr. Brooks and requested that gentleman to "suggest some plan by which ample justice would be done the colored schools, and his objections to the bill removed." Mr. Brooks stated to the committee that "he was anxious to have the building erected, and had no desire to claim a part of any particular fund that the Trustees might borrow to build the school-house, if they (the Trustees) would consent that the District of Columbia should guarantee the prompt payment of the proportion that would become due the colored schools of all moneys expended under the authority of the proposed bill for educational purposes, his objections would be removed." Upon this final agreement a clause was inserted in the appropriation bill, under which authority the money has been borrowed and expended. That the prompt payment of all amounts that would become due the colored schools by the authorized expenditures for the erection of the public school building in Georgetown was fully understood by all parties concerned, will be seen by sec. 4 of the act approved June 26, 1873, which provides, "that the entire amount expended under this act shall not exceed the sum of ninety thousand dollars and the proportion due the colored schools."

The clause of the bill just quoted, together with the provisions of the act approved June 23, 1873, three days before the approval of the act in question, which requires the simultaneous payment of all dues of the white and colored schools, were regarded by all parties at the time as ample guarantee for the prompt payment of all moneys that would become due the colored schools under the act of Congress of July 23, 1866, and a claim for amounts found to be due would have been promptly filed by the Trustees of the Colored Schools, but for the reason that by some irregular methods of representing this expenditure, it was not shown upon the books of the Comptroller until the indebtedness of the District of Columbia was reported by that officer to Congress.

We therefore beg to submit:

First. That the Governor of the District of Columbia and the Trustees of the Public Schools of Georgetown, acting as the agents of the government of the District of Columbia, borrowed from the Trustees of the Linthicum fund \$30,000 under authority of an act of the Legislative Assembly of the District of Columbia, for which public property belonging to said District of Columbia was mortgaged for security of payment; that the money so borrowed was expended for the erection of a public school building in the city of Georgetown, and that under the act of Congress approved July 23, 1866, and of the Legislative Assembly of June 23, 1873, there is due the colored schools a proportion of all amounts expended, and should be allowed and immediately paid.

Secondly. That as only a proportion of money actually paid for the support of the public schools of Washington and Georgetown are allowed and paid for the support of the colored schools of said cities, it is absolutely necessary to the existence of the latter that the proportionate amounts that may become due be ascertained and promptly paid, in accordance with existing law; that the assumption that money borrowed by authority of law by the agents or servants of the Government for which public property is mortgaged, and the faith of the Government pledged to repay, is not "public," but "private," funds, and can be used to build public school buildings without regard to any proportion that may be claimed as due the colored schools under the acts of Congress and Legislative Assembly before mentioned, is erroneous, and in violation of the letter and spirit of the law, and would, if adhered to, effectually abolish for the present the colored schools in the cities of Washington and Georgetown.

In conclusion, gentlemen, we beg also to state that we are anxious to have the school building in Georgetown completed, and will gladly enter into any lawful arrangement, if it can be done, to have this indebtedness paid by the 3-65 bonds authorized by act of Congress.

The adjustment of this account is of such importance to the interest of the colored schools for the next school year commencing September 1, 1874, that we have to respectfully request a reply to this communication, as to what action the Commissioners may deem proper to take in the case.

We are, gentlemen, most respectfully,

HENRY JOHNSON,
JOHN H. BROOKS,

*Trustees and members of Sub-Board for Colored Schools
of Washington and Georgetown.*

WASHINGTON, January 4, 1875.

GENTLEMEN: I have carefully considered the communication of John H. Brooks, Trustee of Public Schools, in regard to the proportion of the public moneys due the colored schools.

The act of Congress of July 23, 1866, requires "the cities of Washington and Georgetown to pay over to the Trustees of Colored Schools of said cities, such a proportionate part of all moneys received or expended for school or educational purposes in said cities, including the cost of sites, buildings, improvements, furniture and books, and all other expenditures on account of schools, as the colored children, between the ages of six and seventeen years, in the respective cities bear to the whole number of children, white and colored, between the same ages."

The money is made payable October 1st, of each year, from which date, if unpaid, interest is to run at the rate of ten per cent.; and the Trustees are authorized to bring an action of debt against said cities for any unpaid amount due them under the law.

The above act was acknowledged to be binding upon the District of Columbia by a statute of the Legislative Assembly, approved June 23, 1873, and the disburs-

ing officers of the District were directed to draw warrants for the proportionate sums due said colored schools; and it was provided that the amount so due should not be used "for any other purpose whatever."

These two acts are clear in their provisions. They define the proportions in which school money shall be expended upon the white and the colored schools and make the amount due the latter a debt which may be enforced at law. The legislation which, by changing the mode of appointment and removal of the Trustees, has made legal redress difficult, does not appear to have touched the essential rights of the colored schools.

The demand particularly insisted upon by Messrs. Brooks and Johnson is, that the proportion due the colored schools under the laws be paid them for the expenditure upon a school building in Georgetown, erected for the white children, partly before the 20th June, A. D. 1874, and still in progress.

Assuming that the facts are as represented, there is, in my opinion, no reason to doubt the validity of this claim. The Congressional act covers *all expenditures* on account of schools, and mentions specifically those for sites, buildings and improvements; and the Legislative act of June 26, 1873, providing for the purchase of the Georgetown site, and the completion of the building thereon, limits the amount to be expended to \$90,000, "*and the proportionate amount due the colored schools,*" thus recognizing that amount as a debt due by the District of Columbia.

It would seem that no part of this debt has been paid; and also, that neither the Comptroller nor any other of the accounting and disbursing officers of the District has complied with the Legislative act of June 23, 1873, directing them to give warrants on the Treasury or the Sinking Fund, for the proportionate amount due the colored schools. As this neglected duty can be complied with now as well as formerly, the statute being merely directory so far as time is concerned, I would respectfully recommend that it be attended to, distinguishing on their face between the amount due prior to June 20, 1874, and the amount due since that time.

The former is part of the unfunded and floating debt of the District, and, if evidenced by the certificates of the Auditor and Comptroller of the District, falls within the third class of claims submitted to the Board of Audit.

The proportionate amount due since the 20th of June, if any there be, should be paid out of the school building moneys received from the city of Georgetown, on taxation, if that fund be sufficient. If that fund shall have been exhausted by improvident payments made for the white schools, the debt is obligatory upon the District Government, and should be provided for. When paid, it should be charged to the corporation of Georgetown, with a view to subsequent reimbursement of the District.

Respectfully submitted.

WM. BIRNEY,
Assistant Attorney.

To the COMMISSIONERS, &c.

I concur in the inclosed opinion of the Assistant Attorney.

E. L. STANTON,
Attorney, D. C.

Washington, March 22, 1875.

By request of the members, the Board of Trustees of the Public Schools in and for the District of Columbia held a special meeting. W. W. Curtis, Esq., in the chair; John H. Brooks, secretary.

Present: Messrs. Champlin, Dyer, French, Hart, Hovey, Johnson, Lloyd, Moffatt, Packard, Smith, and Detrick.

The secretary presented the following communication from the honorable Commissioners of the District of Columbia:

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,

Washington, March 19, 1875.

To the Board of Trustees Public Schools, District of Columbia:

GENTLEMEN: The Commissioners desire an early report by your Board respecting the pay of the present janitors of the Public School Buildings, embracing those for both white and colored schools.

They desire information as to what rate of pay will equalize the compensation of those janitors now employed, considering the character of service rendered by them and the accommodations given them. Also, what additional rate of pay would be necessary to secure mechanics for janitors—men of sufficient skill to do many of the ordinary repairs needed about the buildings, as well as to keep the heating apparatus in good order.

A prompt report is desired as a basis for settlement of the pay for March, the rolls for which will soon be made up.

Very respectfully,

WM. TINDALL, Secretary.

Mr. HART moved that a committee of five be appointed by the Chair to consider and report upon the communication forthwith.

Adopted.

The Chair announced the following as the committee: Messrs. Hart, Detrick, French, Johnson, Moffatt, and Packard.

On motion, the Board then adjourned.

REGULAR STATED MEETING.

FRANKLIN SCHOOL BUILDING,
Washington, April 13, 1875.

The Board of Trustees in and for the District of Columbia met on the above date. W. W. Curtis, Esq., in the chair; John H. Brooks, secretary.

Present: Messrs. Champlin, Dyer, Detrick, Ferguson, French, Hart, Hovey, Lloyd, Moffatt, Packard, Ryder, Smith, and Woodward.

On motion, the reading of the minutes of March 9, 1875, was dispensed with, and approved as printed.

The following communications were received from the honorable Commissioners of the District of Columbia, and placed on file:

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, April 2, 1875.

To the Board of Trustees of Public Schools, District of Columbia:

GENTLEMEN: I am directed to request that hereafter, on the first week day of each month, you will cause requisitions to be made upon the Commissioners of the District of Columbia for all supplies required for use in the Public Schools during the month. When approved by the Commissioners the requisitions will be filled by the parties contracting to furnish the articles, under the direction of a clerk appointed for the duty.

Duplicate bills for the supplies must accompany them when delivered.

The officer, whose duty it is to receive, examine, and receipt for the supplies, will certify upon the requisition that all the articles specified in it have been received by him, and that they conform in quality and kind to the requirements of the contract under which they are furnished. He will attach the bills to the requisition and deliver them together to the Board of Trustees, who will audit the same, and transmit them to the Commissioners of the District of Columbia on or before the 25th of each month.

The requisition so certified and audited will become the voucher upon which the bills will be audited and paid by the District Government.

The Superintendent of Public Schools will render to the Commissioners of the District of Columbia a monthly synopsis of the accounts kept by order of the Board of Trustees of Public Schools of the disposition made of the supplies. The synopsis will set forth the total quantity or number of each of the articles furnished for issue in the several school buildings in the District of Columbia; the number of teachers and scholars in each of the said buildings, and the number of the latter to whom books or other articles have been gratuitously supplied. Printed forms should be used for this purpose.

All bills will be audited and paid on or before the end of each month.

Requisitions for the month of April, inst., should be promptly transmitted to the Commissioners.

With a view to secure prompt making of small repairs *requiring immediate attention* in *any* school district, the orders heretofore existing are so far modified as to authorize the superintendent of the schools, wherein such repairs become necessary, to direct them to be made. He will issue a written order to a suitable mechanic, specifying briefly the work to be done; and, at the time of its completion, will require duplicate bills to be rendered attached to the original order, on which he will certify that the repairs therein specified have been satisfactorily made and that the bills are correct. He will forward the papers without delay to the Board of Trustees for audit. No order will be given by a superintendent that shall involve a cost in *any* one school building exceeding twenty dollars in amount, where the building belongs to the District, and in case of rented buildings, for repairs exceeding ten dollars.

The Board of Trustees will audit and forward to the Commissioners of the District of Columbia all bills received by them on or before the 25th day of each month.

Very respectfully,

WM. TINDALL, *Secretary.*

J. ORMOND WILSON,
GEO. F. T. COOK,
Superintendents.

Superintendent J. O. Wilson submitted the following, which was referred to the Committee on Rules:

OFFICE OF SUPERINTENDENT OF PUBLIC SCHOOLS, FRANKLIN BUILDING,
Washington, D. C., April 13, 1875.

To the Board of Trustees of Public Schools:

GENTLEMEN: I have the honor to transmit herewith the reports of the several principals of the schools, concerning any disregard of regulations Nos. 38, 39, 40, 41, and 42, and the supplying of substitutes from the pupils of the Female Grammar schools in case of the sickness of teachers or absence from any other cause.

These reports were made in compliance with a resolution adopted by the Board at its regular meeting, held the 9th of February last. From these reports it appears that in inclement weather many of the teachers have only one lengthened session of school, terminating about one o'clock p. m.

It is generally claimed that the authority for this change in the regular session was obtained from present or former trustees.

In ten instances it is reported that schools were closed for want of fuel during the past winter.

Some of the teachers detain pupils after three o'clock p. m. for purposes of instruction and discipline.

Very respectfully,

J. ORMOND WILSON,
Superintendent.

Also the following:

OFFICE OF SUPERINTENDENT OF PUBLIC SCHOOLS, FRANKLIN BUILDING,
Washington, D. C., April 13, 1875.

Mr. HOVEY, from the Special Committee, submitted the following report:

Resolved, That on the requisition of a trustee, or principal of any Grammar school, pupils of the Normal school shall be detailed to act as teachers, (in the place of such regular teachers as may be temporarily absent,) to the extent of one to each school district. *Provided*, That the whole number of pupils absent from the Normal school, for this cause, shall not exceed four at any time.

Your committee to whom was referred the above resolution authorizing a detail of pupils from the Normal school, not exceeding four at any one time, to take the places of regular teachers in other public schools temporarily absent, has had the same under consideration, and respectfully submits the following report:

THE NORMAL SCHOOL.

was organized under an act of the Legislative Assembly of the District of Columbia, approved June 23, 1873.

It authorizes the trustees of public schools for the city of Washington to establish a Normal school for the special education of "advanced pupils," who are to become teachers in the public schools; to employ a principal teacher for said Normal school; to make all necessary rules and regulations for its organization and government; to prescribe a course of study; and to fix terms of admission and graduation.

In pursuance of this law, and soon after its passage, the trustees organized in the Franklin Building under a single teacher, a Normal school for girls; and limited the course of study to one year; the number of pupils to twenty; and fixed seventeen as the minimum age for admission.

The first class graduated last June, (1864,) and its members were all required, and are now employed, in the public schools.

The second class is being educated, and the question is, whether this class, or any succeeding class, whose whole course of study and training is crowded into a single year, shall be subjected to a system of irregular absenteeism in order to supply the places of regular teachers temporarily away from their schools.

A majority of your committee think it is not only perilous to the Normal school to sanction such a system, but quite beyond any legitimate power of this Board.

The power to make rules and regulations for the organization and government of the Normal school is a limited power. The trustees may make any rules and regulations necessary for its organization and government, but no others. If it is necessary to scatter the pupils of the Normal school over the city as substitutes for regular teachers who may be absent, in order to organize and govern the Normal school itself, then such a rule may be made: otherwise, not.

These "advanced pupils," authorized to be educated for the special purpose of teaching, are not yet while in school under the pay or in the employ of the public authorities; nor are they subject to the control of the trustees for any such purpose as substitutes for regular teachers.

The most that can be claimed is, that the trustees, under their power to prescribe a course of study, may prescribe *actual practice in teaching* as part of that course.

Some practical application by pupils of Normal schools of the methods of teaching taught them therein usually forms part of the course of training in such schools. Reputable usage, however, seems to require that these teaching exercises should take place under the eye of the principal, or of some other competent teacher, and should be conducted, as other lessons and exercises are conducted, for the sole purpose of aiding pupils in acquiring a knowledge of the art. Instead of allowing pupil-teachers to grope their way in the dark, wasting time in experiments, the Normal principal goes with them to the class-room, observes their methods and points out mistakes. To this extent teaching exercises may form part of the course of study and training. But unsupervised practice, occurring at irregular intervals, and of uncertain duration, and in divers schools, mere hap-hazard practice, with the purpose of filling somebody's place for the time being, surely can have no recognition in any systematic course of study or training. Such practice breaks in upon the course of study, without compensating advantage, and is not sanctioned by the law, nor by reputable usage of Normal schools elsewhere.

GRAMMAR SCHOOL PUPILS.

For some years, your committee does not know how many, it has been customary to call on the principals of the Female Grammar schools for substitutes for absent teachers, and they have detailed their more advanced pupils for that purpose. Your committee does not find any sufficient justification for this practice, and recommend its discontinuance.

USAGE ELSEWHERE.

If neither Normal pupils nor Grammar school pupils be used as substitutes for absent teachers, who can be? What is to be done in cases where regular teachers are temporarily unable to be in their schools on account of sickness, or for other justifiable cause?

The matter suggested by these questions is not novel or peculiar to Washington. In St. Louis the following rule prevails:

"RULE 26. The salary of teachers shall be deducted *pro rata* for absence, except in cases of sickness of teachers, when half pay shall be allowed."

Chicago ordains "that all teachers, when absent from school, shall forfeit their salary during the continuance of such absence, except when the absence is occasioned by sickness, or by death of some near relative, when they shall forfeit from their salary a substitute's pay for the time of such absence, and when a teacher returns to school after a temporary absence, and fails to send notice, as required above, in time to save the substitute the trouble of going to the school, the substitute shall receive pay for one half day, and the same shall be deducted from the pay of the teacher."

Somewhat similar regulations have been established in Boston and other cities. In the county, outside the cities of Washington and Georgetown, the following rules are in force :

"4. No teacher shall be absent from school at any time during the school year without the written permission of the District trustee, except in cases of sickness, or the presence of contagious disease in the family, &c."

* * * * *

"12. Acting teachers shall be subject to the same rules and requirements as regular teachers, and shall be entitled to receive the rate of compensation allowed for the school in which they teach, or to the teacher for whom they act as substitute, their compensation in the latter case to be deducted from the regular teacher's salary."

THE LAW OF 1867.

In 1867, the corporation of Washington enacted that "the salary of no teacher shall be deducted on account of sickness for less than one full month."

So far, then, as the city of Washington is concerned, it has heretofore been thought that any regulation requiring teachers to provide substitutes in case of temporary sickness, and to pay such substitutes even a fraction of their own salary was a plain evasion of the law.

But under a late decision of the Court of Claims it would seem that the employing power may waive the operation of such a law at pleasure. The court held that a laborer, claiming his rights under the eighthourlaw, who was told by his employer, a public officer, that he must work twelve hours for a day's pay, or leave, and did not leave, but continued to work, thereby entered into a contract, which bound him, and superseded all his rights under the law. As to him the law was avoided.

Under the authority of this decision, there would seem to be no insuperable obstacle in the way of the trustees prescribing such a rule for the pay of substitute teachers as may appear to be just and expedient, and in accordance with a very general usage in other cities.

Your committee, therefore, submits a draft of a regulation on this subject, for reference to the Committee on Rules, as a substitute for the resolution which has been under consideration.

SUBSTITUTES.

In case of the absence of any teacher on account of sickness, or other justifiable cause, for not exceeding one day, the school may be dismissed.

In case of longer absence, or where the absence is likely to be of longer duration, the teacher may furnish a substitute: *Provided*, The person selected is satisfactory to the sub-board having special charge of the school.

In case the absentee does not elect to provide a substitute, he or she shall forthwith notify, or cause to be notified, the principal teacher in the school district where the vacancy occurs, whose duty it shall be to employ a substitute; and such substitute shall be paid by said absentee an amount equal to one half of his or her salary his or her place may be filled; and written evidence of such payment shall be filed with the Committee on Supplies and Accounts prior to the auditing of the salary account of said absentee for the month next succeeding the termination of service of said substitute.

Teachers now in the employ of the Board, by continuing, and those hereafter to be employed, by accepting service, will be understood to agree to this rule.

Persons who hold, or shall obtain, certificates from the Committee on Teachers, and notify the respective principals of their readiness to serve as substitutes, and

do so serve successfully, as opportunity offers, shall have preference, next after
graduates of the Normal school, in appointments to the corps of teachers.
Respectfully submitted.

The following amendments were proposed to the rules and regulations.

1. Strike out rule 40.
2. Change 38 to 39, and 39 to 40.
3. Insert as rule 38 the draft of a rule respecting substitutes for absent teachers reported by the Committee on Teachers.
4. Add at the end of rule 39, (new number,) the words "which may be shortened to thirty minutes on stormy days; and in such case the schools shall close at 2.30 o'clock p. m."
5. Amend rule 42 so that it shall read "no other holidays shall be granted without the consent of the Board of Trustees."

Mr. LLOYD offered the following:

Resolved, That the report of the special committee be received, and that said report be taken up for consideration at the next meeting of the Board. Also that the recommendation of the committee be referred to the Committee on Rules, with the request that it report at the next meeting of the Board. *see page 80*

Also a communication from the honorable Commissioners of the District of Columbia, inclosing a proposition from Messrs. Warren Choate & Co., to re-cover black board rubbers now used in the Public Schools.

Referred to Committee on Supplies and Accounts.

Mr. CURTIS, presented the following from the Peabody Library Association:

The report of the committee consisting of Messrs. Dunlop, Cook, and Llyod appointed May 3d, to examine the proposal of the Public School authorities to furnish a room in the new building in Georgetown for the use of the Association.

The committee, having discharged the duty assigned it, beg leave to report:

1st. That in the arrangement and construction of the new school building, two rooms have been provided and set apart for the purposes of the Peabody Library Association, and also a room for the Linthicum Institute.

2d. That the rooms set apart for the Peabody Library Association are well arranged, and are sufficient for a library and reading room, and ample, at least for the present, for all the purposes for which they are intended.

3d. That these rooms were offered to the Peabody Library Association, and the Linthicum Institute to be under their control, respectively, and to be used by them as long as they may desire.

4th. That the care of said rooms, like the other parts of the building, can be under the Janitor of the school-house, for which he would be, no doubt, reasonably compensated by the two associations; and that for the heating and lighting of the rooms, your committee have no doubt that an economical arrangement can be made with the school authorities, and a like economical arrangement can be made by the two associations, for attention to their respective associations, and otherwise work to their mutual advantage.

Your committee further reports that, by the terms of Mr. Peabody's gift, the association is authorized "to erect a house and establish a library therein," but, in view of the fact that the fund is not sufficient for both purposes, but is ample for the one purpose of establishing and maintaining a library and reading-room, it is fair to presume that Mr. Peabody never contemplated such an offer as this, and that, if living, he would readily acquiesce in the acceptance of it; that such an establishment would meet the end he had in view; be of great benefit to the people of the town, particularly the young, and supply a great need, to which they are anxiously looking that this offer may be accepted as a temporary arrangement, at least, if not a permanent one, without violating the spirit and intention of Mr. Peabody's gift; and, finally, that if this proposition fails there is no probability of the fund becoming available for many years to come, your committee offers for your consideration the following resolution:

Resolved, That the offer of the school authorities, of the free use of said rooms in the new school building in Georgetown, for the purposes of this association, be accepted and that a committee consisting of (afterwards filled with the names of Messrs. Hyde and Dunlop) be, and the same is hereby, appointed to inform the public school authorities thereof, ask their needful action in the premises, make all necessary arrangements for the establishment of the said library and reading room and report the same to this board for its action.

Respectfully submitted May 10, 1875.

W. S. DUNLOP.
A. HYDE.

Mr. CHAMPLIN, from the same committee, submitted the following :

Whereas, Section 38 of the act of the Legislature of the District of Columbia, prescribing the duties of certain officers for the District of Columbia, approved August 23, 1871, defines the duties of the Auditor of the District, in auditing bills against the Public schools, as follows:

* * * * *

That all accounts against the Board of Trustees of Public Schools, and Board of Commissioners of the Fire Department shall be rendered in duplicate, and when found correct, shall be approved by the said boards respectively and immediately after the close of each month, a statement of all accounts received and approved as aforesaid, shall be transmitted with the duplicate accounts embraced in such statements to the Auditor of the District, who shall thereupon examine the same; if approved by him, he shall file in his office one set of such accounts, and transmit to the Comptroller a certified statement thereof; the other set he shall return, with his approval thereon, to the respective Board of Trustees of Public Schools and Fire Commissioners.

* * * * *

Should any account transmitted to the Auditor, as aforesaid, be not approved by him, he shall return one set thereof to the boards in which they originated with reasons for his disapproval indorsed thereon.

* * * * *

And whereas, The Auditor of the District has audited bills against the Public Schools, which were neither approved by the Board of Trustees, nor transmitted to him by said board, and in a number of cases has audited bills against the Public Schools, approved by the Board of Trustees for certain amounts, for more than the amounts approved by said Board, and in other cases for less than the approved amount, and in the two latter instances has not informed the Board of Trustees of Public Schools of the facts nor of the reasons for doing so; therefore, be it

Resolved, That the honorable Commissioners of the District of Columbia be respectfully requested to direct the Auditor to audit the bills against the Public Schools in accordance with the law.

Mr. BROWN, from the Committee on Rules, submitted the following report:

To the Board of School Trustees, District of Columbia:

The Committee on Rules, to whom was referred a proposed additional rule regulating the employment of substitutes in the white schools of Washington and Georgetown, in case of the necessary absence of teachers, submitted at the last meeting of the board, report the same back to the board with the following amendment: Strike out the words "now in the employ of the Board by continuing and those" in the fourth paragraph.

Rept. 62
J. S. BROWN,
HENRY JOHNSON,
Committee on Rules.

Mr. LLOYD submitted the following as a substitute for the report and recommendation of the Committee on Rules:

That the act of October 11, 1867, providing "that the salary of no teacher shall be deducted on account of sickness for less than one full month," being in full force and *mandatory* in terms, this Board has no other recourse until further legislation is had, than to literally carry out the plain intent and meaning of the law made for our guidance and observance. And further, it would be establishing a dangerous precedent for us to place a construction on a positive and unambiguous statute, foreign to the intention and purposes of our law-makers. Therefore, be it

Resolved, That this Board recognizes the fact that under the act of October, 1867, it has no right or authority to deduct the salary of a teacher for absence on account of sickness for the space of one month.

Rejected.

The report and recommendation of the Committee on Rules was then adopted.

Those who voted in the affirmative were—

Messrs. Brown, Brooks, Champlin, Dyer, French, Hart, Hovey, Johnson, Mitchell, Packard, Ryder, Smith, and the President.

In the negative—

Messrs. Lloyd, Moffatt, Woodward, and Detrick.

Mr. FRENCH, from the Committee on Prizes and Examinations, presented the following communication from the principal of the first district, and stated the committee was prepared to settle the matter, but, in view of the communication of Mr. McKee, preferred to learn the wish of the board. If the board left the matter to the committee it was prepared to give a decision.

WASHINGTON, D. C., May 8, 1875.

E. F. FRENCH, Esq., *Chairman Committee on Prizes and Examinations:*

DEAR SIR: Inasmuch as the contest of the Male Grammar schools for the spelling medal resulted in a tie between the first and fourth districts, until attention was called to the fact that in the old editions of Hildards Sixth readers the word "ecstasy" is spelled with "ey" as well as "sy," and as the committee decided that if the word could be found in the reader spelled "ey" it should be accounted correct; and as the principal of the fourth district has protested against a decision based upon the above grounds, and has challenged the Male Grammar school of the first district to a second contest for the medal, and as I should be unwilling to accept a prize for my school where there could be any possibility of a doubt as to their right to it, I therefore most cheerfully accept the challenge and respectfully ask that the committee will allow the contest to be settled in accordance with the wishes of the principal of the fourth district.

Very respectfully,

R. M. MCKEE,
Principal 1st District.

On motion of Mr. HART action on the communication was deferred until "new business" was taken up.

Mr. HOVEY, from the Committee on Teachers for the White Schools of Washington and Georgetown, gave notice that the examination of candidates for teachers' positions and of teachers for promotion would be held Saturday, June 5, at 9 o'clock a. m., at the Franklin School Building.

A number of bills were presented and referred to the Committee on Supplies and Accounts.

Mr. FRENCH submitted the following, which was agreed to:

Resolved, That Trustees Curtis and Moffatt be, and they are hereby, appointed a committee on the part of this board to confer with Messrs. Hyde and Dunlop, a committee representing the Peabody Library Association, and that they be instructed to report to this board any plan for establishing the Peabody Library in the new school building in Georgetown, which may be agreed upon by the committee named above. See h.77

Resolved, That the secretary of this board be instructed to furnish Messrs. Hyde and Dunlop with a copy of these resolutions.

Mr. PACKARD submitted the following:

Resolved, That in the list of standing committees wherever the name of Solomon G. Brown appears there shall be inserted in lieu thereof the name of George W. Mitchell.

Agreed to.

Mr. DETRICK submitted the following, which was agreed to:

Resolved, That all prizes awarded to pupils of the Public Schools shall be conferred by the several sub-boards on the closing day of their schools.

Also, the following:

Resolved, That the Committee on Prizes and Examinations be authorized and requested to open the reports of the examiners in Grammar and Arithmetic as soon as presented, and to make known the result.

Agreed to.

Mr. DYER submitted the following, which was agreed to:

Resolved, That the sub-board of the fifth school district and the superintendent be, and they are hereby, appointed a committee to arrange for and take charge of the dedication of the new school building in Georgetown, and also to fix the time for the same.

Mr. HART, from the Committee on Supplies and Accounts, recommended that a contract be made with Jacob Ramsburg, of Georgetown, for re-wooling black-board rubbers at the prices he stated in his communications to this board, provided the honorable Commissioners approve the same.

Agreed to.

Mr. CHAMPLIN submitted the following:

Resolved, That rule 31 shall not be so construed as to prevent the award of "First Honor Medals" to pupils in the Public Schools in the District of Columbia. *Provided*, That in all such awards, the rules of this board shall govern the same; and that no expense be incurred chargeable to the District of Columbia.

Agreed to.

Mr. HOVEY submitted the following:

Resolved, That the following be the mode of selecting a name for the new school-house in Georgetown:

1. Each member of the board shall write the name he prefers upon a piece of paper, and give the same to the Secretary.
2. The Secretary shall then read all the names thus presented.

3. If it appears that a majority of the members present have selected the same name, such name shall be given to the new school-house in Georgetown.
4. If it appears that a majority of the members present have not selected the same name, then the members present shall write names as before and give them to the Secretary, and the course before taken shall be repeated, until it shall appear that a majority of the members present have agreed upon the same name, which name shall be the name of the new school-house in Georgetown.

Adopted.

On motion, the board proceeded to ballot for a name to be given to the new school building in Georgetown. A majority of the votes cast named the building the "Curtis Public School Building;" and on motion of Mr. Johnson, the vote was made unanimous. Mr. Curtis being present returned his sincere thanks to the board for the honor conferred, but respectfully declined to allow his name to be used, and requested the board to reconsider its action.

Mr. Curtis having declined to allow his name to be used, the board proceeded to select by ballot another. A majority selected "Georgetown Public School Building," as the name to be given; which was declared by the President the name selected.

Mr. BROWN, presented the following communication:

To the Trustees of County Schools:

Appreciating very fully your kindness in offering to our schools prizes for scholarship, may we yet be allowed to say that we object to their presentation? We are unable by any known method to judge, even could we measure it, just what amount of combined effort and success would be requisite to entitle one to the rank of a "best scholar."

We have striven to present before our pupils such motives for excellence in scholarship as would be essentially lowered by the offered prizes.

Again, by the holding out of such rewards, we fear an undesirable state of social and moral feelings would be engendered among our pupils.

And where all have tried to do well, it will be a painful necessity for the teachers to indicate, by the prizes bestowed, that only six have succeeded.

Such are a few of the many objections which we might urge against the prizes for scholarship, but they seem to us sufficient to warrant us in asking that, if consistent with your regulations, they may not be given in our schools.

Trusting you will not consider us ungrateful for your intended kindness, we remain,

Very respectfully, yours,

JULIA E. YORK,
MANDANA BROWN,
ELLEN EMERY,
DELIA M. TINGLE,

Teachers of school No. 3, District 3.

WASHINGTON, D. C., April 28, 1875.

Respectfully referred to the general board by request of the county sub-board.

B. F. PACKARD.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING,
Washington, June 8, 1875.

The Board of Trustees in and for the District of Columbia met on the above date, W. W. Curtis, Esq., in the chair; John H. Brooks, secretary.
Present: Messrs. Brown, Brooke, Champlin, Detrick, Ferguson, French, Hart, Hovey, Johnson, Lloyd, Mitchell, Moffatt, Packard, Ryder, Smith, and Woodward.
On motion, the reading of the minutes of May 11, 1875, was dispensed with, and approved as printed.

The following communication from the honorable Commissioners of the District of Columbia was submitted for the information of the Board:

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
Washington, May 31, 1875.

W. W. CURTIS, Esq.,
President Board Trustees of Public Schools, District of Columbia:

SIR: I am directed to transmit you the inclosed copy of the attorney's opinion respecting the water stock standing in the name of the School Trustees, and to advise you that interest on the same ceased on the first ultimo, when the necessary funds for the redemption of said stock were furnished the commissioners of the sinking fund.

The Commissioners would be pleased to confer with you with a view to further arrangements respecting the fund in question.

Very respectfully,

WM. TINDALL, *Secretary.*

OFFICE OF THE ATTORNEY FOR THE DISTRICT OF COLUMBIA,
Washington, D. C., May 27, 1875.

To the Commissioners of the District of Columbia:

I return herewith a report of the School Trustees in relation to water stock, and six per cent. stock of the old corporation of Washington, standing in the name of the School Trustees. It appears that moneys belonging to the school fund were invested in this stock. The stock thus held would have to be redeemed as well as similar stock held by other parties. The purpose of the purchase of this stock originally was the endowment of the public schools by a permanent fund of which the income should be applied to current expenses. The enactments authorizing the original investment required the purchase of stock to be made by the Mayor of the old corporation of Washington, and those enactments contemplate that the investment shall be renewed when necessary, so as to constitute a permanent fund. When, therefore, the stock referred to is redeemed, the Commissioners should invest the proceeds in other stock or bonds of the District.

Indeed, the redemption might be by substitution of other District or city of Washington securities, which should be held in trust for the school fund.

Very respectfully,

EDWIN L. STANTON,
Attorney.

Copy:

On motion of Mr. DETRICK, it was

WM. TINDALL, *Secretary.*

Resolved, That a committee consisting of three members of this Board be appointed by the president to confer with the honorable Commissioners of the District of Columbia in reference to the matter contained in their communication of the 31st ult.

And the Chair announced as the committee, under the above resolution, Messrs. Detrick, Lloyd, and Woodward.

The following communication was presented:

WASHINGTON, D. C., June 8, 1875.
See p. 91

To the Hon. Trustees of Public Schools of the District of Columbia:

The undersigned pupils, representing the Male Grammar of the Fourth District in the recent spelling contest, respectfully state that their declination to take part in a second trial for the same medal, is not caused by any want of respect to the wishes or requirements of the Board of Trustees. We believe that we had strictly complied with the orders of the Board at the regular contest, and that we had made the fewest mistakes, and therefore we were justly entitled to the usual award. We have since been confirmed in this belief by statements from Mr. French, chairman of the Committee on Prizes, who informed us that we had won the medal, and were fairly entitled to it, but something that our teacher had said prevented us from getting it. Mr. Champlain, trustee of our own school, made a similar statement. The newspapers reported that the proposed second contest was to be "permitted" or "allowed" by the Board, hence we did not suppose the request to repeat the former trial to be compulsory. No person has been authorized to make, on our behalf, any challenge or protest in regard to this contest, and we respectfully ask that the medal be awarded (according to the published rules of the Board) to "that school which made the fewest mistakes." In regard to the spelling of the word "ecstasy," we were expressly informed by the agent of the Board, Mr. Pike, who gave out the words, that if the last syllable be spelled either "ey" or "sy" it would be regarded as correct—both ways being used in the text books which you ordered us to study, viz: "Worcester's Comprehensive Speller," and "Hillard's Sixth Reader."

VAN WERT JOHNSON.
ALFRED H. TAYLOR.
BENTON STAHL.
EDWARD BOLAND.
JAMES B. TAYLOR.

On motion of Mr. HART, it was laid over informally.

Mr. FRENCH submitted the following:

The Committee on Examinations and Prizes respectfully submit the following report:

At the last meeting of the Board, May 11th, this committee was prepared to report the result of the spelling contest for medals, but it being understood that there was some dissatisfaction in regard to the result, so far as the Male Grammar schools of the First and Fourth Districts were concerned, and the principal of the Male Grammar school of the Fourth District having personally protested to the principal of the Male Grammar school of the First District, and to the chairman of this committee, against any decision of the contest on the basis which he seemed to suppose the committee might adopt, and after insisting on the justice and propriety of a new contest, still further expressed and enforced his views as follows, in the "Star" newspaper: "We hear to-day that the word ecstasy is ended by one pupil with 'ey,' and is likely to be admitted as correct, because it is a missprint in Hillard's reader in use in the school's. This may decide the contest between the Male Grammar schools, but the decision if made thus will hardly be satisfactory." Your committee also having received a communication from the principal of the Male Grammar school of the First District, decided to lay the whole matter before the Board for instructions in the premises. Mr. McKee's communication was as follows: "Inasmuch as the contest of the Male Grammar schools for the spelling medal resulted in a tie between the First and Fourth Districts, until attention was called to the fact that, in the old editions of Hillard's Sixth Reader, the word ecstasy is spelled with 'ey,' as well as 'sy,' and as the committee decided that if the word could be found in the Reader spelled 'ey,' it should be accounted correct, and as the principal of the Fourth District has protested against a decision based upon the above grounds, and has challenged the Male Grammar school of the First District to a second contest for the medal, and as I should be unwilling to accept a prize for my school when there could be any possibility of a doubt as to their right to it, I therefore most cheerfully accept the challenge, and respectfully ask that the committee will allow the contest to be settled in accordance with the wishes of the principal of the Fourth District."

Mr. Packard then offered the following resolution, which was adopted:

"Resolved, That the Committee on Examinations and Prizes be directed to order a new spelling contest between the Male Grammar schools of the First and Fourth Districts."

In pursuance of the direction of the Board contained in the above resolution, the committee notified the principals of the First and Fourth Districts that the contest ordered by the Board would take place at the Wallach Building on the 14th of May, at 3.30 o'clock p. m., and requested them to have the same six pupils from their respective schools present that were engaged in the previous contest. Mr. J. W. Hunt was requested to select the words for the contest, and to give them out. The chairman of the committee, Mr. Hunt, and the six pupils from the First District were present at the appointed time and place; no pupils from the Fourth District presented themselves. It not being in the power of the committee to proceed further, the facts in the case are laid before the Board.

ADJOURNED MEETING.

FRANKLIN SCHOOL BUILDING,
Washington, July 6, 1875.

Pursuant to adjournment, the Board of Trustees of Public Schools, in and for the District of Columbia, met on the above date, W. W. Curtis, Esq., in the chair; John H. Brooks, secretary.

Present: Messrs. J. S. Brown, Champlin, Detrick, Dyer, French, Hart, Hovey, Johnson, Lloyd, Mitchell, Packard, and Woodward.

The following communications from Mr. John E. Thompson were presented and ordered to be placed on file:

WASHINGTON, July 6, 1875.
To the Board of Trustees of Public Schools of the District of Columbia:

GENTLEMEN: Inasmuch as I am of the opinion that the language used by me to a member of the Board immediately after its adjournment at the meeting of last May, was improper as to time and place, and liable to be misconstrued as an indignity offered to some of my most esteemed friends, I sincerely regret the use of such language and respectfully withdraw the same. I attended the next meeting of the Board for the purpose of tendering an apology due to gentlemen engaged, without pecuniary reward, in an honorable work for the public good, and with whom it is my pleasure, not less than my duty, to co-operate. No reference to the subject being made at that meeting, nor at the succeeding meetings at which I was present, I supposed that no notice would be taken by the Board of an occurrence which did not take place during its session. My regret as to this matter is much increased by the fact that it involves me in a controversy that cannot have beneficial results to any party concerned. I need not assure any but strangers to me that the language used on that occasion would not be addressed by me, (unless impelled by unusual circumstances,) to any man.

It would not be candid to omit to state that although no charges have been made formally against me, and no important regulation of the Board has, within my knowledge, been violated by me, some of the trustees are impressed with the idea that I have shown want of co-operation with the Board, because two or three of my pupils declined a second contest for a spelling medal. Trustee Lloyd urged them to make the second trial, and as all my connection with that matter occurred in his presence, to him I refer for proper explanation. At the same time I most positively deny any intentional failure on my part to co-operate with the Board, and I assert that my desire is, and has been, to execute its laws with promptness and fidelity.

sub. 85

Be assured, sir, that this personal controversy is a thousand times more distasteful to me than it can possibly be to any one else, and that I desire, and have always desired, to promote the efficiency of the Public Schools of this District and to aid all measures tending to that important result. With reference to the giving of medals at a concert given by pupils of the Fourth district to pupils in my school and in other schools for proficiency in studies throughout the last scholastic term, I refer you to Trustee Champlin, whose approval was obtained, and who handed the medals to ex-Trustee J. E. Holmead for presentation. The presentations were not suggested by me, but similar occurrences have taken place in our schools, to my knowledge, annually for the last twenty-five years.

Most respectfully,

JOHN E. THOMPSON,
Principal Male Grammar School, Fourth District.

WASHINGTON, July 6, 1875.

E. F. FRENCH, ESQ.,
Chairman of Committee on Prizes and Examinations:
DEAR SIR: I was surprised to learn to-day that you regarded me as denying your statement made to the Board of Trustees, "that I had visited you at your office in the Treasury Department on the day after the spelling contest, and there offered on behalf of the pupils of my school to spell as against the First district Male Grammar School from three to five hundred words to be taken from Hillard's Reader, and to be spelled in a match for a gold medal after the contest for the grammar and arithmetic medal." That statement is precisely correct, and I have never made any other, nor do I think, did Trustee Lloyd at my suggestion.
Yours, truly,

JOHN E. THOMPSON, *Principal, &c.*

Mr. BROOKS, from the Special Committee, appointed by the Board to consult with the District Commissioners in reference to purchasing a site for a school for the colored children of the Second district, reported as follows :

OPINION OF MR. STANTON.

see p. 44 also

OFFICE OF THE ATTORNEY OF THE DISTRICT OF COLUMBIA,
July 20, 1875.

To the Commissioners of the District of Columbia :

SIR : I return herewith the papers relating to the inquiry recently made of me by you, as to whether the Commissioners of the District have the authority to buy sites for colored schools.

Where particular officers of a municipal corporation have the power to buy real estate for the uses of the municipality, it must be by virtue of special authority for that purpose.

In my opinion, the power to purchase real estate, in the name of the District of Columbia, is not vested in the Commissioners in respect to school sites. In the papers which are referred to me, the suggestion was made that the Trustees of Public Schools have the authority to purchase real estate as sites for colored schools. Section 279, Consolidated Statutes of the District, refers to the purchase of sites for school-houses outside of, and not within, Washington and Georgetown.

It is a question how far the power to purchase sites in the country has been exhausted. Nowhere, however, is the power specifically given to the Board of Trustees to purchase sites for schools in Washington and Georgetown.

In my judgment the Trustees do not possess that authority. By law a certain proportion of all moneys received or expended for school or educational purposes in Washington and Georgetown is set apart for the purpose of establishing and sustaining public schools for the education of colored children. This fund for the maintenance of colored schools cannot be diverted. But the power to dispose of a fund of money for certain purposes does not necessarily imply the power to purchase real estate.

The power of the one Board of Trustees of Public Schools which now exist is the same as respects both these schools for colored children and other public schools, and it seems to be admitted that the Trustees do not possess the power to purchase sites for the latter in Washington and Georgetown.

The special grant of power which only can authorize any officer of the District to bind the District by a contract for the purchase of real estate for school sites in Washington and Georgetown is not conferred by law upon either the Commissioners of the District or the Trustees of Public Schools.

Very respectfully,

EDWIN L. STANTON,
Attorney, D. C.

W.M. TINDALL, *Secretary.*

Mr. BROOKS further reported as follows :

REPORT OF COMMITTEE.

WASHINGTON, D. C., July 27, 1875.

To the Board of Trustees of Public Schools in and for the District of Columbia:

Your Special Committee to whom was referred the inclosed preamble and resolution—

“Whereas there is not sufficient and proper school accommodation in the Second School District of Washington City for colored children, and the rented barrack building being totally unfit for further use for school purposes ; and whereas, by act of Congress, the Board of Trustees are given the control of all the funds for the support of schools for colored children; therefore,

“Resolved, That a committee be appointed, to consist of two members of this Board, and the Superintendent of Colored Schools of Washington and Georgetown, to consult with the honorable Commissioners and make all necessary arrangements for the securing of a site and suitable plans for a school building to be erected in said Second district, and report to this Board at its next meeting”—

has to report that they submitted the same with a written communication to the honorable Commissioners of the District of Columbia, and that the papers were by them handed to Hon. E. L. Stanton, the attorney of the District of Columbia, with the “inquiry as to whether they (the Commissioners of the District of Columbia) have the authority to buy sites for colored schools.” That officer replies that “in my [Stanton’s] opinion the power to purchase real estate in the District of Columbia is not vested in the Commissioners in respect to school sites.” Your committee agree fully with Mr. Stanton that the Commissioners have not the authority to buy real estate in the name of the District of Columbia for schools for colored children in the cities of Washington and Georgetown.

Mr. Stanton, in his opinion, also says: “The suggestion was made that the Trustees of Public Schools have authority to purchase real estate as sites for colored schools,” and quotes section 279, Consolidated Statutes of the District of Columbia, as “referring to sites outside of and not within Washington and Georgetown. It is a question how far the power to purchase sites in the County has been exhausted. Nowhere, however,

is the power specifically given to the Board of Trustees to purchase sites for schools in Washington and Georgetown. In my [his] judgment the Trustees do not possess that authority." The section quoted (279 of the Consolidated Statutes of the District of Columbia) has no bearing, in the opinion of your committee, on this question; it refers entirely to the Public Schools outside of the limits of the two cities. Your committee differs from Mr. Stanton's conclusion that the power is nowhere specifically given the Trustees to purchase sites for schools in Washington and Georgetown. As the legal successors to the late Board of Trustees of Colored Schools of Washington and Georgetown this Board has the right to purchase sites for these schools with the funds placed by law to their credit, and under their sole control. Section 209, Consolidated Statutes of the District of Columbia, says: "The Board of Trustees of schools for colored children shall have sole control of the fund arising under the provisions of section 306, as well as from contributions by persons disposed to aid in the education of the colored race, or from any other sources," and section 310 says "it is made the duty of the Trustees to provide suitable rooms and teachers for such a number of schools in Washington and Georgetown as in their opinion will best accommodate the colored children in the various portions of said cities." Section 311 says: "The Board of Trustees of schools for colored children shall possess all the powers, exercise the same functions, and have the same supervision over the schools provided for in this chapter for the education of colored children in Washington and Georgetown as are exercised over the Public Schools in said cities, by the Trustees thereof, by virtue of the laws and ordinances in force in said cities respectively." Congress by the act of July 28, 1866, fully recognized the power of the Board to hold real estate by directing the Commissioner of Public Buildings "to grant and convey to the Trustees of Colored Schools for the cities of Washington and Georgetown, for the sole use of schools for colored children in said District of Columbia, all right, title and interest of the United States in and to lots numbered 1, 2, and 18, in square No. 985, in said city of Washington." No land or buildings were ever conveyed by the United States to the Trustees of the Public (white) Schools, but always to the authorities of the two cities for the use of the schools. The whole legislation of Congress from 1862 to 1873, relative to the Colored Schools in cities of Washington and Georgetown, shows plainly that the leading purpose of that body was to render the Trustees independent of local interference; so they were given different and greater powers than either of the two other Boards of Trustees of Public Schools in the two cities; and this Board, to-day, (as the legal successor to the late Board of Trustees of Public Schools for colored children in the cities of Washington and Georgetown,) has greater and very different powers by law than it has now or ever had over and in the interest of the Public (white) Schools within the limits of the two cities. To the local corporate authorities alone was there given the power to establish the number and grade of schools, pay of teachers, the purchase of sites, erection of buildings, and the control of the school fund. These corporate powers were given the Board of Trustees for schools for colored children in the cities of Washington and Georgetown, and the attention of the Board is respectfully called to the provisions of the act of Congress of July 23, 1866, which was passed at the solicitation of the Board of Trustees, the two cities having so construed the act of July 25, 1864, as to deny them a proportion of the amounts expended for the purchase of sites and the erection of buildings. Section 306 of the Consolidated Statutes of the District of Columbia, which is the codification of the 18th section of the act of July 25, 1864, and act of July 23, 1866, says: "It shall be the duty of the

proper authorities of the District to set apart each year from the whole fund received from all sources by such authorities applicable to purposes of public education in the cities of Washington and Georgetown, such a proportionate part of all moneys received or expended for school or educational purposes in said cities, including the cost of sites, buildings, improvements, furniture and books, and all other expenditures on account of schools, as the colored children between the ages of six and seventeen years, in the respective cities, bear to the whole number of children white and colored, between the same ages, for the purpose of establishing and sustaining public schools in said cities for the education of colored children."

In his opinion, Mr. Stanton says, "the powers of the one Board of Trustees of Public Schools are the same as respects both the schools for colored children and other public schools, and it seems to be admitted that the Trustees do not possess the power to purchase sites for the latter in Washington and Georgetown.

Your committee disagree *in toto* in this conclusion of Mr. Stanton, and unless the order of the Commissioners consolidating the boards wiped from the statute-book all laws enacted in reference to the public schools for colored children in the cities of Washington and Georgetown, there is a marked difference in the powers of this Board over white and colored schools of said cities. If Mr. Stanton is correct, then the order of consolidation greatly increases the powers over the public (white) schools, or it greatly lessened those over the schools for colored children; for certainly prior to the order the powers of the two Boards widely differed; and your committee would respectfully call the Board's attention to sections 308, 314, 315 and 316, and in fact from sections 294 to 319 of the Consolidated Statutes of the District of Columbia, to show beyond a doubt the powers of this Board in behalf and over the colored schools in the before-mentioned cities. The plain letter of the law shows it; contemporaneous construction by all of the departments of the local government and the numerous official decisions of his predecessors in office show the powers of the two former boards widely differed. And your committee cannot but look upon this declaration of the law officer as fraught with great danger to the further lawful exercise of the powers vested in the Trustees by Congress for the protection of the educational interests of the colored children.

Your committee do not agree with Mr. Stanton in his conclusion, and so far as the "intent and meaning of the laws" are concerned can personally testify that the "power to purchase sites and erect buildings" was supposed by both Congress and the Trustees to have been given, or remedial legislation would have been sought long since. Your committee regret that there is so decided a difference of opinion as exists between the law officer and itself; but his official declarations in the opinion herewith submitted strikes at the very existence of the schools for colored children. If, as he says, the Board has no greater power under the laws while acting as Trustees of schools for colored children than it has for the other public schools, then it has not the sole control of the funds for the support of the former, and the funds cannot be placed to its credit and in the hands of the Comptroller, acting as the treasurer of the Public Colored Schools. The Board cannot establish and sustain as many schools as in its opinion will best accommodate the colored children in the various portions of these two cities. Won by a hard struggle, through many trials and tribulation, it is certainly painful to those for whose protection they were enacted to see these just laws so interpreted as to virtually repeal them, and a dangerous line of precedents established; which, in the hands of less friendly authorities, must succeed in breaking them up. Your committee, in concluding this report, respectfully submits:

1. That under the laws of Congress there is ample authority for the Board of Trustees to buy land and build school-houses for the colored children in the cities of Washington and Georgetown, with the funds set apart by law for establishing and maintaining schools for colored children in said cities.

2. No other body has the power to expend this fund, or in any way control it, and it is the duty of the authorities to pay over to the treasury of this Board all amounts due to this fund, and it is unlawful to retain it in the treasury of the District of Columbia credited to this fund and under the control of others not given the power of control by law.

3. The order of the Commissioners abolishing the office of treasurer of the Board of Trustees of Colored Schools, and transferring the duties to the Comptroller of the District of Columbia, in no manner repealed the laws defining the duties of such treasurer, and it is his duty to request payment in behalf of the Board and in obedience to law of all amounts due this fund from the District of Columbia.

4. That while we have every confidence in the friendly disposition of the present authorities, it is clearly to the interest of the colored schools and people here, while separate schools are maintained and based upon color, to urge a strict compliance with the present laws of Congress on that subject. Neither equity nor justice will avail a weak minority when the necessities of the majority would seem to demand a sacrifice on the part of the minority, and past experience teaches that the best protection the colored schools can have is the provision of positive law.

Respectfully,

JOHN H. BROOKS.
HENRY JOHNSON.
GEO F. T. COOK.

Mr. BROOKS, from the same committee, offered the following :

Resolved, That in view of the decision of the law officer of the District of Columbia and action of the honorable Commissioners, that this Board suspend for the present its efforts to secure a proper site and erect a building for the Colored Schools in the Second district, and that the Special Committee be authorized to rent or lease, upon the best terms possible, suitable rooms for schools for colored children in said Second district, and report their action under this resolution to this Board.

Adopted.

Mr. DETRICK tendered his resignation as a member of the Committee on Teachers of the White Schools of Washington and Georgetown and Committee on Annual Report, and recommended as his successor Mr. Randolph, his colleague.

On motion, the Board adjourned.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING,
September 14, 1875.

The Board of Trustees of Public Schools, in and for the District of Columbia, met on the above date, W. W. Curtis, Esq., in the chair; John H. Brooks, Secretary.

Present—Messrs. Brown, Brooke, Champlin, Dyer, Detrick, French, Hart, Hovey, Johnson, Lloyd, Moffat, Packard, Mitchell, Randolph, and Smith.

The reading of the Minutes of the meetings of the Board of August 10th and 31st, and September 3d, 1875, was dispensed with and they were approved as printed.

The following communication from the Honorable Commissioners was presented by the Secretary :

OFFICE OF THE COMMISSIONERS
OF THE DISTRICT OF COLUMBIA,
WASHINGTON, September 8, 1875.

To the Board of Trustees of Public Schools, District of Columbia :

GENTLEMEN : I am directed to return to you, for further examination, the bills of repairs upon school buildings as follows :

Graham & Carson	\$227 72
S. S. Hunt.....	130 00
H. L. Gettier.....	270 00

and to state that the bills appear, in each case, to have been cut down by a Trustee in the district where the repairs were made, and the reduction so made accepted by you without an examination of statements and estimates in detail of the actual work done, and of the proper charges therefor.

The circumstances under which these bills were submitted for audit are peculiar, and call for unusual investigation and care in those instances in which the amounts charged appear to you to be excessive. These bills are rendered in conformity to contracts made by Inspector Plowman, under the orders of the Commissioners. Mr. Plowman presented a statement of external repairs necessary to be done to each building, with estimates of the cost, based upon actual offers made by mechanics to do the work, and this was approved by your Board, having been submitted to you by the Commissioners.

The internal repairs were authorized upon statements and estimates

presented to the Commissioners by your Board, but not based upon actual bids by mechanics to do the work ; nor do they appear to have been made by experts.

The work internal and external has been done under the supervision of Mr. Plowman, who certifies to the correctness of the bills. He is an architect familiar with the values of such work ; and those cases where your Board considers the charges too much, would seem to call for very careful investigation ; to demand that you should have before you in detail the exact items of work done, with careful estimates, by a competent person, of the proper charge for each item, so that you could form an intelligent and just judgment, and report the subject-matter in such form that the Commissioners can act as circumstances demand. They cannot, understandingly, recognize objections to bills audited under such circumstances, where this kind of care has not been observed ; for such action would be unjust to an officer of the Government, and raise serious questions with the contractors themselves.

Observing the first bill in order for \$227.72, the charge of \$190 for repairs upon the school building, corner Twenty-second and I streets, N. W., is cut down \$32.40, although the estimated cost, submitted by your Board, was \$200. The contract was, therefore, for less than your estimate.

Very respectfully,

WM. TINDALL, *Secretary.*

Referred to Committee on Supplies and Accounts for investigation and report.

Also the following :

Mr. BROOKS presented the following report :

SUMNER SCHOOL BUILDING,
October 12, 1875.

To the Board of Trustees of Public Schools.

GENTLEMEN : The Sub-Board of the Seventh District, to whom was referred the complaint of R. A. McMurray and others, of a nuisance committed by the children attending the John F. Cook School Building, referred by the Honorable Board of Police Commissioners to this Board, have the honor to report that they have fully examined into the alleged nuisances, but were unable to find a single case of complaint by any citizen against a pupil or pupils attending said school. The complaint is general, and in no manner charges misconduct upon any individual pupil.

Before the commencement of the present school year, the building was without yard accommodations. It was, therefore, impossible to retain the children during recess in the passageways each side of the building, which measure only $9\frac{1}{2}$ feet one side, and 10 the other ; but by cutting down in front on O street, and fencing in the space allowed for parking, sufficient play-ground has been secured for the girls, and they are now kept in the yards. There are no yard accommodations for the boys, and they are allowed during recess to go into the street. Special attention is called to rules Nos. 21, 30 and 31, which are strictly enforced, and since this complaint was made, the special attention of the teachers has been called to them.

The Sub-Board found that nearly every building on O street has enclosed front grounds 30 feet from the sidewalk. These grounds are planted with flowers, and in no case have the grounds or flowers been disturbed by the pupils attending the school.

The charge of insults being offered to the wives and daughters of the complainants could not be traced to any pupil of the school by such being brought to the notice of any of the teachers, and is so general and indefinite that it appears to be groundless.

Everything possible to carry out the rules of the Board has been done, and we believe there are no reasonable grounds for complaint. We have, unfortunately, a number of residents near this School Building who are opposed to public schools being located in respectable neighborhoods, and vote them a nuisance, and are, of course, unreasonable in their demands, and totally regardless of the common rights of others to the use of the highways.

The children attending the School have been warned, and the efficient police officer in whose beat the building is situated, is co-operating with the members of the Sub-Board and teachers, to prevent any cause of complaint on the part of well-disposed citizen residing near the John F. Cook School Building.

Report adopted.

The Committee on Rules, to which was referred the following resolution, amending the rules, offered at the last regular meeting of the Board of Trustees, namely—

Resolved, That the following be added as No. — to the rules and regulations :

Pupils who have been three years in attendance upon a Grammar School, and have gone through its full course, may, if still within the lawful school age, upon application to a Trustee, be allowed to return to the school for another year for the purpose of review, but such reviewers shall not be allowed to compete a second time for the highest honors of the school, nor for the prizes offered by the District Government,

Report the same back without recommendation.

J. S. BROWN,
J. RANDOLPH,

Mr. RANDOLPH, from the Joint Committee on Teachers, submitted the following report, which was accepted and ordered to be printed in the Minutes:

WASHINGTON, D. C., November 9, 1875.

To the Board of Trustees of the Public Schools.

GENTLEMEN: At a stated meeting of the Board October 12, 1875, it was

"Resolved, That the Committees on Teachers be and they are hereby directed to ascertain and report to this Board, the cost of tuition in the several School Districts in charge of this Board, and whether in any District there is a deficiency or excess of teachers, and if so, in what District; together with such recommendations as they shall deem proper."

In pursuance of this resolution, a joint meeting of the several Committees was held October 20, 1875, and after a careful examination of the statistics of the schools for the month of September, of the present school year, they would respectfully submit to the Board the following facts and recommendations:

I. The average number of pupils in attendance, and the cost per pupil in each District for the month of September, were as follows:

	Average attendance.	Cost per pupil.
1st District.....	2,263	\$1.32
2d ".....	2,631	1.36
3d ".....	2,120	1.40
4th ".....	1,757	1.43
5th ".....	903	1.45
6th ".....	1,244	2.09
7th ".....	4,471	1.34

The average cost per pupil in the five districts comprising the white schools of Washington and Georgetown, as compared with that in the Sixth District (County schools), and in the Seventh District (colored schools), may be stated thus: Average cost per pupil. Washington and Georgetown, \$1.39 per month; County schools, \$2.09; and Colored schools, \$1.34.

II. The average number of pupils to each teacher in the several districts is as follows:

1st District.....	63.9
2d ".....	90.1
3d ".....	57.6
4th ".....	60.2
5th ".....	53.9
6th ".....	42
7th ".....	55

Or, taking the five first districts again as a unit in the comparison, the average stands thus : White schools of Washington and Georgetown, 59.14 ; County schools, 42 ; Colored schools, 55.

III. The number of pupils enrolled in each of the Male Grammar Schools of the several districts of Washington and Georgetown during said month, together with their respective grades, may be stated as follows :

1st District	—72	pupils of the 8th and 9th grades.
2d	" 55	" " "
3d	" 61	" " "
4th	" 59	" 8th grade.
5th	" 48	pupils chiefly of the 6th and 7th grades.

In the Fifth District the Male Grammar School has only seven pupils of the eighth (or grammar) grade, the balance of the school, as stated above, being properly of intermediate grades.

In the First District its Principal had, in addition to his special school duties, the supervision of 2,363 pupils in thirteen school buildings ; in the Second District its Principal had 2,706 pupils in fourteen buildings ; in the Third District, 2,131 pupils in thirteen buildings ; in the Fourth District, 1,807 pupils in five buildings ; in the Fifth District, 916 pupils in five buildings.

After carefully considering the facts submitted under this head, your Committees find that no deficiency of teachers exists in the Male Grammar School of the Fifth District.

IV. In reference to the County schools, your Committees would submit as part of their report the following statement of the Committee on Teachers for said schools, to wit :

"The schools of the county necessarily show a greater cost of tuition per pupil than those of the city. In the sparsely settled districts it is necessary to maintain single schools for the white and colored children, some of which have but a limited number of pupils. If this class of schools had a fuller attendance, the cost of tuition per pupil would be greatly reduced."

It will be observed by reference to the monthly reports of the schools at Uniontown, Mount Pleasant and Howard University, that the cost is much less than the rate herewith reported. It is proper to state in this connection that the incidental expenses of the county schools are quite small, over three-fourths of all the expenditures being for teachers' salaries.

In our large buildings it is found to be impracticable to assign more than forty-five pupils to a teacher, on account of the multiplicity of classes that a greater number would produce. We find great difficulty in giving the large number of classes we now have proper instruction, the teachers in many instances being compelled to materially shorten the recitations.

September is not a fair test month so far as the county is concerned, as many of the larger pupils, on account of the occupation of their parents, do not come in until a month or two later.

The Committees therefore recommend that there be no reduction made in the number of teachers or schools of the Sixth District.

V. Your Committees would report a deficiency of two teachers in the First District, and would recommend the opening of two more schools to relieve the over-crowded condition of many of those now existing.

They have also to report a deficiency of two teachers in the Second District, and they would recommend the opening of two new schools to provide for 150 applicants awaiting admission by ticket in said district.

They would further report a deficiency of three teachers in the Seventh District, and would recommend the opening of three additional schools in said district.

The recommendations under this head are based upon the excess of pupils or applicants for seats, in the First, Second and Seventh Districts over the average allowance, under the existing regulation of the Board of sixty pupils to each school now in operation.

Appended hereto are tabulated statements, marked exhibits A and B, which have been kindly furnished your Committees by Mr. Superintendent Wilson, and by Mr. H. Johnson, Chairman of the Committee on Teachers for Colored Schools.

All of which is respectfully submitted.

JOHN RANDOLPH,

Chairman of the joint meeting of the Committees on Teachers.

Mr. CHAMPLIN called up the proposition of C. B. Church & Co. to erect a school building in the Fourth District, and rent the same to the District of Columbia, with the privilege of buying the same, presented at the last meeting of the Board, and moved its acceptance.

Mr. BROWN offered the following as a substitute :

Resolved, That we recommend the proposition of C. B. Church & Co. be accepted ; *Provided*, they modify their proposition to the effect that they accept a yearly rental, not exceeding ten per cent. of the cost of erecting the building and the assessed value of the ground, to be occupied thereby.

Those who voted in the affirmative were Messrs. Brown, Brooks, Hovey, Mitchell, Randolph and the President—6. Those who voted in the negative were Messrs. Brooke, Champlin, Dyer, Detrick, Ferguson, French, Hart, Johnson, Lloyd, Moffat, Packard, Ryder and Smith—13.

So the substitute was lost.

The motion of Mr. Champlin to accept the offer of Messrs. C. B. Church & Co. was then adopted.

Mr. SMITH moved that the Committee on Property be requested to consider the advisability of introducing into the public school buildings of this District, as a sanitary measure, Dr. Colburn's Porous Evaporator.

Resolved, That the Committee on Legislation be requested to inquire what, if any, legislation is necessary to perfect the system of Public Schools in this District, and report to this Board at its next session.

Agreed to.

Mr. DYER submitted the following :

Resolved, That this Board recognizes the Trustees of each District as the sub-Board of the same, and ratifies all the acts done by such sub-Boards.

Adopted.

Mr. LLOYD, from the Committee on Music, submitted the following :

Your Committee having had under consideration how best to advance the teaching of vocal music in the large number of white schools in the city of Washington, respectfully recommend that the teaching of music in the first and second grade be placed under the control and direction of the regular teachers of such schools ; but the Director of Music, or one of his assistants, be required to visit said schools, from time to time, for the purpose of examination.

B. F. LLOYD,

A. HART.

FRED. W. MOFFAT,

G. W. MITCHELL,

WILLIAM P. RYDER,

Committee on Music.

Adopted.

Mr. LLOYD offered the following :

It being a recognized fact that the water closets in the Jefferson, Potomac and Greenleaf School Buildings are grossly inadequate, and by reason thereof filth and indecency is engendered ; it is hereby recommended that the Committee on Property take the matter under consideration, with a view to giving sufficient accommodations to the pupils attending said school buildings.

Referred to Committee on Property.

Mr. HOVEY called up the petition of Messrs. Emery, Clarke and others in reference to using the Seaton School Building for girls, &c., and offered the following resolutions

Resolved, 1. That the building now in process of erection, for the use of the Public Schools, on the triangular piece of ground bounded by New York Avenue, L, and Sixth streets northwest, be and the same is hereby set apart for boys' schools only.

2. That whenever and so soon as this new building shall be completed and ready for occupation, the *Seaton* building shall be, and the same is hereby, set apart for girls' schools only, and its present occupants shall vacate.

3. That a copy of these resolutions be furnished to the Committee on Property for their guidance as to the necessary closet accommodations required in the new building.

Referred to the Special Committee on the enlargement of the Berret School Building, with instructions to report to this Board at its next meeting.

On motion of Mr. Brooks, it was agreed that when the Board adjourn it adjourn to meet Friday, 12th instant, at 7.30 o'clock P. M.

The Board then, on motion, adjourned.

ADJOURNED MEETING.

Total estimate of expenses of Public Schools of Washington, Georgetown and County..... \$271,500
Proportionate amount for Colored Schools of Washington and Georgetown 115,000

Grand total \$386,500

Over 4,000 children are now compelled to attend schools in rented buildings, most of which are not well adapted to the purpose, and many are badly lighted and ventilated, damp and unhealthy.

For these rooms, 73 in number, an annual rent of \$20,635.00 is paid, and, in addition, a large sum is expended in fitting up and repairing them, estimated at not less than \$5,000 per annum, which makes, with the rental, \$25,635. To purchase sites and erect suitable, plain, but substantial buildings to meet the present wants of the Public Schools of the District, will require an expenditure of \$400,000.

The United States has, from time to time, made most liberal donations of public lands to aid in establishing and sustaining common schools in all the Territories as they became States. The District of Columbia, the permanent seat of the Government, over which Congress exercises exclusive legislation in all cases whatsoever, has had no share in the distribution of these educational benefactions.

It would seem only just that the public schools of the District of Columbia should receive from the General Government equal benefactions with like schools in the States and Territories, either in the form of land donations, or by some equivalent mode, and we respectfully ask you to invite the favorable attention of Congress to the subject.

The special reasons for asking Congress to aid in establishing and supporting a system of public schools for the District of Columbia may be briefly stated as follows:

First. About one-third of the school population is colored, composed largely of the "wards of the Nation," who have come into the District since the beginning of the war. They add but little, if anything, to the school revenues.

Second. About thirty per cent. of the enrollment in the white schools is composed of children whose parents or guardians are in the employ of the United States Government, and the school revenues receive but little benefit from these residents.

Third. The United States Government is the owner of about one-half of all the real estate in the District of Columbia.

For a very full discussion of the "Proprietary of Government aid to the Public Schools of the District of Columbia," you are referred to the Annual Report of the Public Schools for 1873-'74, pages 50 to 58.

COLORED SCHOOLS OF WASHINGTON AND GEORGETOWN.

The future prosperity and success of the colored schools of Washington and Georgetown will depend upon the faithful execution of the present laws of Congress, dividing and apportioning the school fund, which, from practical experience, have been found to be just and equitable, and entirely satisfactory to all classes of citizens.

We, therefore, urgently recommend—

First. That no change be made in the present laws of Congress dividing and apportioning the school fund, but that the acts of Congress of June 25, 1864, and July 23, 1866, *vide* chapter 12, sections 306, 307, 308, 309, 310 and 311 of the "Revised Statutes of the United States relating to the District of Columbia," and the act of the Legislative Assembly of the District of Columbia, approved June 23, 1873, shall remain in full force, as the basis of all future disbursements on account of schools.

Second. That Congress be requested to make the necessary appropriation to pay the proportionate amount of school fund (to wit: \$20,346) due the colored schools upon the expenditure of \$50,865 for the erection of the Georgetown Public School building, to be expended in the erection of a school building for colored children in said city.

Third. And in view of the decision of the Attorney of the District of Columbia, that there is not now sufficient authority for that purpose, such remedial legislation as will authorize the Trustees to expend the fund to the credit of the colored schools, for their support, and the purchase of the necessary sites and erection of buildings for their accommodation in the cities of Washington and Georgetown.

Chairman Special Committee.*

*W. W. CURTIS,
President Board of Trustees.*

JOHN H. BROOKS, Secretary.

The Secretary presented the following communication :

OFFICE OF THE COMMISSIONERS

OF THE DISTRICT OF COLUMBIA,

WASHINGTON, D. C., November 12, 1875.

Ordered, That all bills for supplies to the District government shall be sent direct by the contractor to the property clerk for his examination and certificate ; said bills to be sent direct by him to the proper department for its examination and action, and thereupon to the Commissioners for their examination and reference to the proper accounting officer of the District.

All bills shall be separate for each department.

Official copy, furnished for information of Board of Trustees of Public Schools, District of Columbia.

By order,

WILLIAM TINDALL, *Secretary.*

Mr. RANDOLPH, from Special Committee on the Enlargement of the Berret School Building, submitted the following Report :

NOVEMBER 12, 1875.

To the Board of Trustees of Public Schools :

GENTLEMEN : Your Committee, to whom were referred the resolutions hereto annexed, would respectfully report :

That after due consideration they are of the unanimous opinion that it would be injudicious in the midst of the present school year to make the changes in the male and female schools of the Second District which the first and second of said resolutions would necessitate.

In the organization of the schools throughout the District at the commencement of the year, the transfers were made and the tickets issued with reference to the relative proximity of pupils to the then existing school buildings. The proposed change would require a considerable readjustment in the midst of the term of the schools of a large portion of the District. And this is not all.

In the judgment of the Superintendent, and also of the Principal of the District, it would be impracticable to transfer bodily any nine of the eleven boys' schools of the Seaton to the Berret, particularly those of the primary grades, as said schools are now constituted, nor would it be possible to bring any ten girls' schools in the District intact to the Seaton. It would require not only a general transposition of the schools of the Seaton, McKelden, Miller, Larner and other buildings, but the very organization of several of the schools for the smaller children would have to be completely broken up, and new schools in fact created by inter-transfers, in order not to deprive such children of school privileges on account of the increased distance they would have to go, and that, too, in mid-winter.

It is the purpose of the Sub-Board of said District, if these recommendations of your Committee meet the approval of the Board, to mass the female grammar and all the girls' intermediate schools in the new building, and to assign the remaining rooms of the same to the girls' Primary schools now held in the Sixth Street German Church, and within a few rods of said building. This change, it is believed, can be effected with the least disturbance of the present organization of that District, and as the schools transferred from any distance to said building will be composed of larger pupils, it will work little or no hardship to the younger children.

In regard to the new building, it is the judgment of your Committee that in all its arrangements it should be so constructed as that it can at any time hereafter be used either for boys or girls' schools. In the Franklin, the Seaton, and others of our larger school buildings, this plan has been pursued, and we recommend that the same method be insisted upon in this building.

These considerations, submitted by the General Superintendent and also by the Principal of the District, have determined your Committee to propose the following resolutions as a substitute for the first and second referred to their consideration by this Board, to wit:

Resolved, 1. That this Board hereby recommend to the Honorable Commissioners of the District that the new Berret School Building be so constructed in all its arrangements as that it shall be adapted to either boys or girls.

2. That the status of the boys' schools in the Seaton Building shall remain unchanged during the remainder of the present school year, and that the Berret Building, when completed, shall be occupied by girls' schools during the same period.

3. That at the commencement of another school year the Seaton Building shall be permanently occupied by girls, and the Berret by boys.

In relation to the third resolution referred to your Committee, they would, while reporting the same back to the Board without recommendation, respectfully ask that the Board decide at this meeting whether or not this Special Committee on the Berret Building shall be continued in sole charge of the same until completed.

W. W. CURTIS, *Chairman.*
R. B. DETRICK,
JOHN RANDOLPH.

Resolved, That the building now in process of erection for the use of the public schools on the triangular piece of ground bounded by New York avenue, L and Sixth streets northwest, be, and the same is hereby, set apart for boys' schools only.

2. That whenever and so soon as this new building shall be completed and ready for occupation, the Seaton Building shall be, and the same is hereby, set apart for girls' schools only, and its present occupants shall vacate.

3. That a copy of these resolutions be furnished to the Committee on Property for their guidance as to the necessary closet accommodations required in the new building.

Referred to the Special Committee to Superintend the Enlargement of the Berret School Building, with instructions to report at next meeting of this Board.

JOHN H. BROOKS, *Secretary.*

Mr. HOVEY requested a separate vote on each resolution of the Committee.

On the first resolution those who voted in the affirmative were Messrs. Brooks, Johnson, Ryder, Detrick, Randolph, Mitchell, and the President —7. Those who voted in the negative were Messrs. Champlin, French, Hart, Hovey, Lloyd, Packard and Smith—7.

So the first resolution was lost.

On the second resolution those who voted in the affirmative were Messrs. Brooks, Johnson, Ryder, Randolph, Detrick, and the President —6. Those who voted in the negative were Messrs. Champlin, French, Hart, Hovey, Lloyd, Packard, Mitchell and Smith—8.

The third resolution was adopted.

Mr. HOVEY then moved the adoption of the first and second of the original resolutions which had been referred to the Committee, and the motion was carried by a vote of 10 to 4.

Yea—Messrs. Champlin, French, Hart, Hovey, Lloyd, Packard, Smith, Randolph, Detrick and Mitchell. Nays—Messrs. Brooks, Johnson, Ryder and Curtis.

Mr. HOVEY moved as a substitute for the third of the original resolutions, that instead of the Committee on Property, the resolutions be furnished to the Special Building Committee.

Adopted.

Mr. JOHNSON, from the Sub-Board of the Seventh District, to whom was referred the petition of Messrs. Collins, Bowen and others, citizens residing in the Fourth School District, asking for increased school accommodation, submitted the following report :

The facilities in said district consist of one two-story brick, located on the corner of Ninth and E streets, southwest, indifferently erected in 1864. It has eight school rooms with a seating capacity for 466 pupils. The size of rooms is 37 feet long, 27 feet wide and 11½ feet high. The number of cubic feet to the room is 11,488; number of cubic feet of air for each pupil, 191. Value of school property : Site, \$4,500; building, \$9,000; furniture, \$1,950. Total, \$15,450.

The Randall School Building, located at the intersection of Delaware avenue, H and First streets, is a one-story frame building, formerly a barrack, enlarged in 1869. It has five small school rooms, and very limited conveniences, with a seating capacity for 280 pupils. The lot contains 9,068 square feet, and is triangular in form, being similar to that upon which the new Berret School Building is now being erected. It was deeded by the United States Government to the Trustees of Colored Schools for educational purposes. In addition to the above there are two small school rooms, one fairly adapted for school purposes, while the other is so miserable in its general fitness that nothing but extreme necessity would justify its retention for a single day. The school accommodation in the Fourth District is not only inadequate, but generally of such a nature as to require immediate remedial measures, both with a view to the furtherance of education and protecting the health of the children.

The establishing of higher grades of schools, the want of which is complained of in the Fourth District, is a matter which applies, as far as the colored schools are concerned, to all the districts, and is caused by insufficient school accommodation; hence it can be remedied only by giving additional school accommodation. The opinion of the law officer for the District of Columbia being favorable to the erection of buildings for educational purposes on sites owned by the Trustees, the Sub-Board would most respectfully recommend the erection of a plain, substantial brick building, with at least ten school rooms, on the site now occupied by the barrack, at the intersection of Delaware avenue, First and H streets. The Sub-Board would further state that the condition of the frame barrack now occupied for school purposes on the site above mentioned is such as will compel them in a short time to vacate the premises. They would also state that ample funds are now to the credit of the colored schools to justify the recommendation herewith submitted.

HENRY JOHNSON,
JOHN H. BROOKS,
WM. P. RYDER.

Mr. HART offered the following :

Resolved, That the pay of the substitutes be computed by dividing the month's salary of the teacher by the number of school days in the month, and for each day's substituting the substitute shall receive one-half of the per diem so found.

Adopted.

Mr. LLOYD offered the following :

Resolved, That the members of the Board offering resolutions or other papers to be referred be required to make them in duplicate.

Adopted.

The Board, on motion, then adjourned.

REGULAR MEETING.

FRANKLIN SCHOOL BUILDING,

December 14, 1875.

The Board of Trustees of Public Schools in and for the District of Columbia met on the above date, W. W. Curtis, Esq., in the Chair; John H. Brooks, Secre-tary.

Present: Messrs. Brown, Champlin, Dyer, Ferguson, French, Hart, Hovey, Johnson, Lloyd, Moffat, Packard, De.rick, Mitchell, Randolph, Smith, and Ryder.

The Secretary presented the following from the Honorable Commissioners of the District of Columbia :

Communication of J. H. Cook, enclosing bill of Dr. A. T. Augusta for \$50 for service rendered as Teacher of Anatomy and Physiology in the Preparatory High School, Sumner School Building, for the month of May, 1875, referred to this Board, calling attention to enclosed affidavits.

Referred to Sub-Board of the Seventh District.

Also the proposition of James McLain & Co., to furnish the material and place in position upon the several school buildings "the Munson tubular copper lightning rod."

Referred to Committee on Property.

Also the report of this Board upon the petition of Messrs. Bowen, Collins and others, relative to school accommodations for the colored children in the Fourth School District, returned with the following endorsement : " November 23, 1875. Returned to the Board of Trustees of Public Schools, who will confer with Mr. Plowman as to the character of building required in this locality, and he will prepare and submit to said Board plans for same, which when approved by the Board of School Trustees will be forwarded thereby to the Commissioners. The plans will be based upon an expenditure in no case to exceed \$20,000, for cost of building complete. No extra will be allowed upon any condition whatever."

Mr. JOHNSON offered the following :

Resolved, That the recommendations of the Honorable Commissioners, relative to the proposed erection of a school building in the Fourth School District for colored children, be referred to a Select Committee consisting of the President of this Board, Superintendent of Colored Schools and members of the Sub-Board of the Seventh District, with authority for said Select Committee to act.

Mr. CHAMPLIN moved to amend the resolution by inserting "Committee on Property," in lieu of the Select Committee named.

After discussion the resolution was temporarily laid aside.

Mr. FRENCH presented a petition from R. A. McMurray and others, in reference to alleged offences committed by pupils attending the John F. Cook School Building, and complaining of a report made to this Board on the same subject by the Sub-Board of the Seventh District.

Consideration indefinitely postponed.

On motion of Mr. JOHNSON, the vote indefinitely postponing the consideration of the petition of R. A. McMurray and others was reconsidered, and

Mr. DYER offered the following :

Resolved, That the petition be returned to the petitioners, with the request that if they have any complaint to make against the scholars of the John F. Cook School for misconduct occurring since their former complaint, that they will make the same more specific as to the alleged offences complained of, and the persons who are alleged to have committed such offences.

Adopted.

Mr. FRENCH presented the following :

Mr. PACKARD, from the Committee on Property, submitted the following report and recommendation :

WASHINGTON, D. C.,

December 14, 1875.

GENTLEMEN: Referring to the resolution adopted by the Board requesting the Committee on Property to take into consideration the condition of the water-closets at the Jefferson, Greenleaf, and Potomac Buildings, your Sub-Committee have to report that they have visited those buildings and have made a careful examination of the premises.

At the Jefferson Building we found the water-closets in a wretched condition; being constructed with the spring seat, it is intended that they should cleanse themselves while in use, but not more than two out of the whole number of seats will operate. The valves are out of order, and there does not appear to be a sufficient pressure of water, on the girls' side in particular, to cleanse the hoppers. This latter defect is probably produced by the over abundant flow of water through the troughs on the boys' side, and could be remedied by enlarging the main supply pipe. We would recommend that the entire water-closet arrangement at this Building be completely and thoroughly overhauled and put in a wholesome sanitary condition.

We next visited the Greenleaf Building. Arriving there between the hours of 12 and 1 o'clock, we were unable to find any teachers in attendance. The passages were open, however, and full of school children, who were conducting themselves in a very boisterous manner. The floors of the passages and the stairways are very filthy and littered up with pieces of paper, bread and butter, chunks of meat, nut shells and other rubbish. The water-closets in this building are not kept as clean as they should be. The urinal accommodations are inadequate, and we would recommend that an additional urinal 6 to 8 feet long be put in at once.

Arriving at the Potomac Building, we found the teachers in and their rooms in fair order, but the halls were about as filthy as at the Greenleaf. Some portions of the floor, such as under the stove and washstands, did not appear to have been molested by the sweeps since the beginning of the school year. There is room for improvement as to the cleanliness of the water-closets at this building as well as at the Greenleaf. The urinals are insufficient, and we would recommend an additional one be put in, the same as at the Greenleaf, at as early a day as possible.

It is evident that the sweeps at the Greenleaf and Potomac Buildings are slack in performing their duties, and require watching. It is the opinion of your Committee that the Principal of the Fourth District should be required to inspect these buildings more frequently, and correct the faults herein mentioned. A *frequent personal inspection* of the water-closets should be required of every teacher.

Respectfully submitted.

Adopted.

Mr. CHAMPLIN, from the same Committee, submitted recommendations for repairs, new furniture, &c., for the several school buildings.

Recommendations of Committee approved.

Mr. JOHNSON called up his resolution relative to the appointment of a Select Committee to superintend the erection of the proposed school building for colored children in the Fourth District, Mr. J. Sullivan Brown in the chair.

the Honorable Commissioners be requested to purchase of Perry Sherwood the parcel of land situated on the Rockville turnpike at the intersection of the Pierce's Mills road, containing one half acre, more or less, at a cost not exceeding five hundred dollars, and that the erection of a school building on said lot be commenced at an early day.

Also, a report relative to the fire and subsequent panics at the Stevens School Building, enclosing a detailed statement of the Principal, Mrs. M. V. On motion of Mr. FRENCH, the whole matter was referred to the Committee on Property, with power to act.

Those who voted in the affirmative were—Messrs. Brown, Brooke, Champlin, Curtis, Dyer, French, Hovey, Lloyd, Packard, Smith—10.

Negative—Messrs. Brooks, Detrick, Ferguson, Johnson, Mitchell, Randolph, Ryder—7

Mr. JOHNSON, in connection with this subject, presented the following communication :

FOURTH PRECINCT STATION,
WASHINGTON, D. C., January 31, 1876.

Mr. HENRY JOHNSON,

Chairman Sub-Board School Trustees, &c.:

SIR : In answer to yours of the 24th instant, asking for information concerning the conduct of the Principal and her associate teachers during the recent fire at the Stevens School Building, I am pleased to be able to inform you that the conduct of the teachers on that occasion was of a most praiseworthy and deserving character, and that it was principally owing to the coolness and untiring efforts on the part of the Principal and her associate teachers that no very serious accident occurred.

Very respectfully yours, &c ,

A. A. GREER,
Lieutenant Fourth Precinct.

And submitted the following :

Resolved, That the thanks of this Board are due, and are hereby tendered, to Mrs. M V. Datcher, Principal of the Stevens School Building, and her associate teachers, for the admirable coolness and self-possession displayed on the occasion of the recent fire and subsequent panics at said building.

Adopted.

Mr. PACKARD, from the Committee on Property, submitted the following report in reference to recommendation of Sub-Board of the Sixth District to purchase a site and erect a school building on the Bladensburg road :

Recommendation of Sub-Board concurred in, and favorable action of the Board requested.

Approved.

Referring to the request of the Sub-Board of the Sixth District, that the school property for colored children at Brightwood and Fort Slocum be condemned and sold, and in lieu of these two pieces of property that a site be purchased on the Shepherd road midway between said points, and a two-room school house erected thereon during the coming spring for the better accommodation of the colored youth attending said schools, the Committee report back the same for the favorable consideration of the Board.

Report of Committee approved.

Relative to the communication of Alexander Kibbey, janitor "Cranch Building," requesting an adjustment of his salary, your Committee desire the same laid over until the next regular meeting of the Board.

Granted.

In the matter of additional heating apparatus for the Jefferson Building, introduced by Trustee Lloyd, your Committee ask for further time to consider the subject.

Granted.

In relation to the proposed concreting of the floors of the water-closets at the "Stevens Building," your Committee have made a careful examination of the premises, and are not yet prepared to report.

Further time granted.

The request for a cistern at the white school near the Soldiers' Home appears to be a reasonable one, and there is no doubt that the plan proposed is feasible, and, in fact, the only one that can be adopted. Your Committee would recommend that the building be properly spouted and a cistern built, the cost not to exceed \$215 for the entire work, including filter and pump.

Recommendation of Committee approved, and ordered to be forwarded to the Commissioners of the District of Columbia.

Concerning the resolution referred to your Committee fixing the salaries of janitors, we would respectfully report that it is deemed inexpedient to interfere with the existing contracts with janitors during the present school year, and have to request that further time be granted us in which to prepare a schedule of salaries to take effect at the commencement of the next school year.

Mr. JOHNSON moved that the report be adopted.

Mr. BROWN moved to amend by referring back the whole matter to the Committee on Property, with instructions to report a schedule of prices for janitors at the next meeting of the Board.

Rejected by the following vote :

Yea—Messrs. Brown, Brooke, French, Hovey, Lloyd—5.

Nay—Messrs. Brooks, Champlin, Curtis, Detrick, Ferguson, Johnson, Mitchell, Packard, Randolph, Ryder, Smith—11.

The motion of Mr. Johnson was then adopted.

Yea—Messrs. Brooks, Champlin, Curtis, Detrick, Ferguson, Johnson, Mitchell, Packard, Randolph, Ryder, Smith—11.

Nay—Messrs. Brown, Brooke, French, Hovey, Lloyd—5.

Referring to the resolution offered by Trustee Lloyd, requiring the Superintendents, or one of them, to be personally present whenever furniture is to be placed in any school-room, your Committee would recommend its adoption.

Adopted.

In relation to the proposition offered by Trustee Hovey, for awarding special prizes for the best kept school building, your Committee have partially matured a plan, and ask for further time to complete the same.

Granted.

The resolution offered by Trustee Hovey, defining the duties of janitors, is reported back to the Board with the statement that it is deemed inexpedient to enact regulations of the kind proposed, believing that the rule prescribing the duties of Principals adequate to meet the case.

Recommendation adopted.

It is the purpose of the Sub-Board to transfer the schools now occupying said tenements to the Abbot Building for the remainder of the present school-year.

JOHN RANDOLPH,
R. B. DETRICK,
Trustees Second District.

Approved.

Mr. PACKARD, from the Committee on Property, made the following report:

In relation to the proposition for awarding a special medal for the best kept school building, your Committee deem it inadvisable at this time to report a plan for the distribution of same, owing to the fact that over one-half of the school-year has already elapsed, and it appears to be necessary that all parties in interest should have notice at the beginning of the school-year.

Approved.

Also the following:

Referring to the communication of the County Sub-Board relative to the proposed new school-house near Tennallytown, your Committee have to recommend that the Commissioners of the District of Columbia be requested to purchase the site mentioned and cause the building to be commenced at an early day.

Approved.

Also the following:

Your Committee, to whom was referred the resolution offered by Trustee Hovey, respecting a schedule of salaries to be paid the janitors of the several school buildings, beg leave to report the same back to the Board without recommendation.

And offered the following:

Resolved, That the matter of compensation of janitors be referred to a

special committee, to be composed of one member from each District, who shall report a schedule to the Board at a special meeting, which shall be held Tuesday evening, March 21.

Agreed to.

The Chair appointed Messrs. Curtis, Hart, Detrick, Hovey, Lloyd, Packard, and Johnson as the special committee.

Also, recommendation of Superintendent Wilson, that the interior wood-work in Franklin School Building be repainted and grained.

That the recommendations of the Sub-Board were approved, and the authority of the Honorable Commissioners was requested to have the work done, which was granted. Two stairways leading from the first to third floors, four feet six inches wide, of continuous rail and quarter flights, have been placed in the building. The Committee thoroughly examined the building as to its strength and the means of speedy and safe egress in case of a panic of the pupils, and also called in the opinion of experts, with which opinion they fully concur.

The Committee, in addition to the new double stairways placed in the building, caused to be erected a flight of stairs from the iron portico on the east side to the side-walk below, eight feet wide. The work was done under contract with Mr. Walter Jackson, at a cost of \$815, in fifteen consecutive working days. The Sub-Board of the Seventh District was informed upon the completion of the work, and the Schools were promptly re-opened.

Also, with the request that the Board approve the same, "a requisition from the Sub-Board of the Seventh District, for 80 Shattuck single desks No. 1, Grammar School; 10 Shattuck single desks No. 2; 30 Shattuck single desks No. 3; all with ink wells."

Approved.

ADJOURNED MEETING.

FRANKLIN SCHOOL BUILDING,

March 21, 1876.

The Board of Trustees of Public Schools in and for the District of Columbia met on the above date, W. W. Curtis, Esq., in the chair, John H. Brooks, Secretary.

Present—Messrs. Champlin, Detrick, Dyer, Ferguson, French, Hovey, Johnson, Lloyd, Mitchell, Packard and Randolph.

The Chair stated that this was an adjourned meeting of the Board for the special purpose of considering the equalization of pay of janitors in the Public Schools.

Mr. PACKARD, from the Special Committee, submitted the following majority report, and moved its adoption:

WASHINGTON, *March 21, 1876.*

To the Board of School Trustees:

GENTLEMEN: Your Special Committee, to whom was referred the matter of equalizing and adjusting the salaries of janitors and sweeps, beg leave to report that they have duly and critically considered the subject, and respectfully submit the schedule herewith annexed, believing it to be as fair and impartial an apportionment as can be made. It is deemed advisable by the Committee to recommend that all janitors or sweeps, in addition to his or her duties of sweeping, dusting and making fires, shall, without additional compensation, be required, as often as is necessary in the judgment of the Principal of the District, to scrub the school-rooms, clean glass, and other duties necessary to the healthy occupation of the building.

A. HART, 1st Dist.,
R. B. DETRICK, 2d Dist.,
CHAS. E. HOVEY, 3d Dist.,
BEN. F. LLOYD, 4th Dist.,
W. W. CURTIS, 5th Dist.,
B. F. PACKARD, 6th Dist.

*As to the work to be done:—*The buildings are to be cleaned, warmed, and watched; and such incidental repairs are to be made by the janitors, when needed, as are usually required to be made by competent janitors.

For the purpose of ascertaining what allowance should be made for these services, three items have been specially considered:

1. Number of school rooms.

2. Number of other rooms.
 3. Boilers or furnaces.

No separate account is taken of privies or grounds, but, of course, these items are included in the general estimate.

As to allowances:—Each janitor is allowed, for his own services, \$2 a day for 300 days, or \$600 per annum.

If, as in case of the Cranch building, he can perform alone all that is required, and nothing is chargeable to him for rent, fuel or lights, then no further allowance and no deduction is made; the pay remains at \$600 per year. But if the building is large, and the janitor cannot alone do all the work required to be done, then a further allowance is made for the necessary additional help.

In such case \$16.66 a month, for six months, is allowed for a fireman where there is but a single boiler; \$20 a month, for six months, where there are two steam boilers located side by side; \$25 a month, for six months, where there are two steam boilers located as in the Franklin building; and \$27.50 a month, for six months, where there are two steam boilers located as in the Jefferson building.

In such case, also, there is allowed for sweeps \$2 a month for each school room proper, and \$1 a month for each other room, while the schools are in actual session—ten months in the year.

A charge of \$14 a month is made for rent, fuel and lights, where these are furnished. Allowance is made for a fireman in the Abbott

It will be noticed that no allowance is made for a fireman in the Abbott building, where furnaces are used; and none in the McCormick building, also heated by hot air furnaces.

For buildings heated by stoves, \$5 per month, for ten months, for single isolated rooms, and \$4 per month, for ten months, for each of two or more adjacent rooms.

Mr. JOHNSON submitted the following minority report from same Committee :

To the Board of Trustees of the Public Schools of the District of Columbia:

The minority respectfully dissents from the report of the majority, for the following reasons :

That the schedule submitted, so far as it relates to the uniformity of prices paid for the same labor in the several large school buildings heated by steam, is unfair and inequitable, as will be shown by the following figures :

Franklin, \$962, 16 rooms	\$5.01 per room.
Jefferson, \$1,077, 20 rooms	4.48 "
Wallach, \$782, 11 rooms	5.92 "
Seaton, \$762, 10 rooms	6.35 "
Curtis, \$742, 8 rooms	7.72 "
Abbott, \$642, 9 rooms	5.94 "
Cranch, \$600, 6 rooms	8.33 "
McCormick, \$225, 4 rooms	4.68 "
Sumner, \$832, 12 rooms	5.77 "
Stevens, \$980, 14 rooms	5.83 "
Lincoln, \$762, 10 rooms	6.35 "

It will be observed that the amount paid per room, Jefferson Building, the largest in school accommodations (20 rooms), and representing a property valuation of over \$160,000, is less by \$3.85 than that paid in the Cranch Building, containing only six rooms, with a property value of only \$28,000. A like comparison can be made between the Franklin and Curtis Buildings ; for the former, with 16 rooms, representing a property valuation of \$222,000, \$5 per room is paid ; while for the latter, with 8 rooms, representing about one-half the property value, \$7.72 per room is paid.

The minority also dissents because of the further inequality when applied to the Seventh District, which includes the schools for colored children in

the cities of Washington and Georgetown, for the reason that no additional expense is incurred in those schools by the employment of a mechanical janitor at large, at a salary of \$1,200, most repairs now made by him in the First, Second, Third and Fourth Districts, being made by the janitors of the respective buildings of the Seventh District, without additional compensation.

The minority favors an equalization of salaries of janitors where the circumstances admit of the same, and favors retrenchment when not detrimental to the public interest; and so far as the facts allow, cheerfully agrees with the majority upon these points, but is not prepared to agree to the schedule of salaries submitted, or the principles upon which it is based, as it establishes inequality and not equality of pay.

Upon this question the organization of the schools in the Seventh District should be considered, in order to do justice to the subject.

In the opinion of the minority sufficient time was not taken by the Committee to fully consider the subject; and we respectfully recommend that the whole subject be recommitted, with instructions to report at the next regular meeting.

Respectfully submitted,

HENRY JOHNSON.

J. ORMOND WILSON,
GEO. F. T. COOK,
Superintendents.

Mr. JOHNSON submitted the following :

To the Board of Trustees of Public Schools.

see p. 68, 46

GENTLEMEN : The Sub-Board of the Seventh District has the honor to report that it has submitted all the papers bearing upon the complaint of Mr. Wm. Syphax. As the question was wholly one of discipline, its settlement devolved upon the Sub-Board. It is of that class described by Superintendent Carne, of Alexandria, Va., in his report of Public Schools of that city for 1875, in which, speaking of the Colored Schools, he says : "When the present school system went into operation a large number of colored boys and girls entered apparently because it was the fashion, but when they found that the rules were stringent, and that attendance and study were to be enforced, they came no more. Certain persons, too, who desired to obtain control of the Colored Schools, were active in creating dissatisfaction, and a number of our colored people desired a change of teachers. A careful examination of the matter, however, convinced me that most of the complaint arose from a rigid enforcement of the regulations, and that unless we allowed pupils to attend or not, behave or not, and study or not, as they pleased, no change we could make would be satisfactory. The colored teachers are generally very well qualified, and, as will be seen, the prejudice against them is being gradually overcome, and the colored people are slowly learning that without discipline there can be no education."

Respectfully,

HENRY JOHNSON,
JOHN H. BROOKS,
W. P. RYDER,
J. H. FERGUSON,
Sub-Board.

Mr. HOVEY moved the appointment of a special committee of three, to whom all the papers and reports should be referred.

Mr. BROWN offered the following as a substitute :

Resolved, That the report of the Sub-Board of the Seventh District upon the matter submitted by Wm. Syphax to this board, be approved, and its action sustained.

Adopted.

Mr. FRENCH, from the Committee on Examinations and Prizes, respectfully reported:

That after due consideration they have decided to recommend for adoption, in all essential particulars, the method pursued last year in the examinations of the Schools this year. The Committee has had under consideration so much of the resolution reported by the Committee on Rules October 12, 1875, as was referred to this Committee, which reads as follows: "But such reviewers shall not be allowed to compete a second time for the highest honors of the School, nor for the prizes offered by the District Government;" and are of opinion that it is inexpedient to adopt such a rule; that it would be unjust to those pupils who have spent almost the entire year in study, with the reasonable expectation that they might be called on to compete for honors and prizes, as well as unjust to those younger pupils who have been forced into the Grammar Schools a year, and in some cases two years, sooner than is desirable, by the pressure of numbers in the lower grades.

The Committee has also considered the resolutions offered by the member from the Third District, and referred to this Committee, in regard to special contests; and in view of the additional labor already imposed on the pupils in preparing for the Centennial, as well as of the fact that the duties of the Committee, and others who are called on to assist, are already arduous, are of opinion that it is not best to make any change at this time. A programme for the Annual Examinations is presented herewith.

E. F. FRENCH,
R. B. DETRICK,
C. B. SMITH,
HENRY JOHNSON,
Committee.

Mr. RANDOLPH offered the following amendments to the report, which were adopted:

Resolved, That the reviewers in any Grammar School who have been more than three years in attendance thereat shall not be allowed to compete a second time for the highest honor of the School.

Resolved, That the annual competitive spelling contests in schools above the seventh grade be hereby discontinued.

Mr. CHAMPLIN, from the Committee on Supplies and Accounts, submitted the following bills for approval of the Board:

Ellen Bailey, \$3.50; William Ballantyne, \$370.06, \$189.91—\$559.97; H. Becket, \$15; Robert Boyd, \$10.08; John H. Brown, \$150; John Butler, \$3.50; Charles Davis, \$53.75; Eph. Davis, \$50; J. F. Ellis & Co., \$50; Samuel Emery, \$670.37, \$177.25—\$847.62; W. W. Farr, \$15.67; N. Fugitt, \$58.57; B. D. Gallagher, \$39.99; Z. D. Gilman, \$2.60; H. I. Gregory, \$2.50; A. Hart, \$50; C. Lindiman, \$12.50; G. W. McKnight, \$245.92; J. L. Matthews, \$8; *National Republican*, \$5; W. W. Rapley, \$24.50, \$25—\$49.50; F. F. Robinson, \$7; J. L. Savage, \$11.86; Martha Williams, \$3.50; W. Choate & Co., \$56.33, \$11.25, \$63.59—\$131.17; James McGill, \$6.75; W. H. Hanover, \$50.20, \$17—\$67.20; John Barry, \$23.10; George Willner, \$22.25; W. J. Murtagh, \$31; Charles Miner, \$5; Patrick Goines, \$11. Total, \$2,553.50.

Approved.

Also the following communication:

WASHINGTON, D. C., April 5, 1876.

EDWARD CHAMPLIN, Esq.,
Chairman Committee on Supplies and Accounts.
DEAR SIR: I beg to hand you with this the amount of money in my possession from the last public school performance.
As per arrangements of the Committee on Music, there is \$46.20 for the First District; \$60.50 for the Second District, and \$24.80 for the Third District. The amount coming to the Fourth District (\$32.10) was called for by Mr. B. F. Lloyd and paid to him some time ago.
There being an old balance of \$3.25 belonging to the First District in my possession yet, the whole amount herewith transmitted for the First District is \$49.45.

Very respectfully yours,

A. HART.

Placed on file and money paid to Chairman Committee on Music.

Mr. DETRICK offered the following:

Resolved, That in the judgment of the Board the use of Cornell's Geographies in the Public Schools fails to secure satisfactory results in that study, and is not approved by a large number of the teachers.

Mr. HOVEY offered the following as a substitute:

WHEREAS, The course of study in geography, as at present prescribed, seems to have been diluted or spread out to accommodate itself to the text-books on that subject now in use in the Public Schools of this District, consisting of three volumes prepared by Miss Cornell, and one volume prepared by Mr. Apgar, thereby subjecting parents to the expense of buying four separate books for each pupil on this single subject of geography at an aggregate cost of \$4.75; and

Whereas, It is desirable to reduce the number of text-books on geography required in the course of study, if it can be done without detriment to the efficiency of instruction in that branch, and thereby to relieve parents, in part, of this tax for geographies; therefore,

Resolved, That the Committee on Text-Books be requested to inform this Board 1. Whether any modification of the course of study in geography requiring the use of text-books on the part of the pupils can properly be made which shall confine it within narrower limits, and, if so, what modification? 2. Whether there are text-books now available which contain in a single volume, or, at most, in two volumes, all the matters and things which ought to be contained in a text-book on geography for the Public Schools of this District; and, if so, what are these text-books, their character and cost?

Resolved, That said Committee be also requested to include in their report similar information as to the course of study and text-books in arithmetic.

Resolved, That the Committee on Text-Books be hereby directed to make inquiry and report in writing at the next stated meeting of the Board whether the trustees of any district have within a year made any changes in text-books, other than those ordered by this Board, and without its knowledge and consent.

Resolved, That said Committee also report at said meeting a list of the publishers of the several text-books now in use in the Public Schools in this District.

Adopted and referred to Committee on Text-Books.

Mr. DETRICK, from the Special Committee appointed to investigate the matter of arrears of pay due Miss Susan R. Le Bosquet, formerly a teacher in the First District, (\$183.34,) reported that shortly after the appointment of the Committee the balance due her was handed to the Committee by the late Treasurer of the Board, William L. Cowan, and promptly transmitted to her by the Chairman.

The Committee further report that the accounts of the late Treasurer have not yet been audited, and recommend that steps be taken to have said accounts examined and adjusted by the Auditor of the District of Columbia, and that a copy of this report be transmitted to the Honorable Commissioners.

R. B. DETRICK,
GEORGE W. DYER,
CHARLES E. HOVEY.

Adopted.

Mr. HOVEY offered the following:

WHEREAS, Some diversity exists in the organization and internal management of the Public Schools of this District, and in the pay and qualifications of the teachers employed, owing, no doubt, to the diversity of laws under which these several schools have come into being and operation—the schools for white children, in the cities of Washington and Georgetown, having grown up under municipal law and control, and the schools for colored children in the same cities, and for white and colored children in the county *outside* of these cities, having grown up under laws of Congress; and

Whereas, Some diversity also exists in the pay of teachers employed in different grades of schools, in the same organization or system; and

Whereas, The number of male teachers employed is but a very small fraction of the whole number of teachers employed in the Public Schools; therefore,

Resolved, That the Committees on Teachers be, and they are hereby, requested to take into consideration the matters hereinbefore referred to, and report to this Board, at its next regular meeting in June—

1. A brief statement of the organization and manner of conducting and supervising the schools for white children in the cities of Washington and Georgetown, the schools for colored children in the same cities, and the schools for white and colored children *outside* of said cities, setting forth, particularly, wherein there is variance. This statement to be accompanied by such suggestions and recommendations as the committees shall deem advisable.

2. Whether it is desirable to recommend the employment of more male teachers than are now employed; and if so, how many more, and what schools should they be assigned to.

3. Whether it is expedient to require equal qualifications of all teachers in like grades or classes; and if so, whether the examination of all teachers should not be devolved upon a single committee.

4. Whether it is expedient to recommend a revision of the salaries of teachers, to take effect at the beginning of the next school year, with a view to greater fairness, equality, and economy; and if so, to report a schedule showing what the revised salaries should be.

Agreed to, and referred to Committees on Teachers.

Also the following:

Resolved, That the Committee on Property be requested to inspect all the janitors' quarters in the Public School Buildings of the District, and report to this Board, in detail, their extent and condition, together with estimates for their repair or enlargement, if in any case or cases the same shall be deemed necessary and practicable. And also whether in any case or cases an abatement of the proposed "charge," or any part thereof, for fuel, light, and rent, as set forth in the report of the Special Committee on Pay of Janitors, should be made; and if so, whether the whole, or a part, should be abated, and the reasons therefor.

Resolved, That the action of this Board, at its late special meeting, amending the report of the Special Committee on Janitors' Pay so as to relieve the janitor of the Lincoln Building from any charge for rent, fuel, and light, be rescinded.

On motion a vote was taken on the first resolution, which was adopted.

The yeas and nays were demanded on the second resolution, which was rejected by the following vote:

Affirmative—Messrs. Hovey, Packard—2.

Negative—Messrs. Brown, Brooks, Champlin, Curtis, Detrick, Dyer, French, Johnson, Lloyd, Randolph, Reyburn, Ryder, Smith—13.

Mr. BROWN offered the following:

Resolved, That the resolution heretofore adopted by this Board, "That no further effort be made toward a representation of the Public Schools of the District of Columbia at the Centennial Exhibition," be hereby rescinded.

Agreed to.

Mr. FRENCH offered the following:

Resolved, That the name of Dr. Reyburn be placed on all committees where vacancies occur, occasioned by the resignation of Mr. Hart.

Agreed to.

Mr. DETRICK offered the following, which was agreed to:

Resolved, That twenty dollars be added to the compensation of janitor of the Seaton Building, fixed at the last meeting of this Board, to correct error in report of the Special Committee, there being two boilers instead of one.

Adopted.

On motion, adjourned.

To the Hon. Commissioners of the District of Columbia:

J. ORMOND WILSON,
GEO. F. T. COOK,
Superintendents.

Placed on file.

Superintendent WILSON presented his fifth annual report of the statistics, condition and prospects of the Public Schools, supervised by him.

Referred to Committee on Annual Report.

Mr. FRENCH offered the following, which was adopted :

Resolved, That by the authority of the honorable Commissioners of the District of Columbia, the Committee on Annual Report be directed to have printed for the use of the Commissioners of the District of Columbia, and the Board of Trustees of Public Schools, two thousand copies of the Annual Report of the Public Schools of the District of Columbia for 1874-75.

Mr. PACKARD presented a petition of the citizens of the Seventh District, (County,) asking for additional school accommodations. Approved by the Sub-Board of the County, and referred to the General Board, with recommendation that an additional room, of sufficient size, be built to the present building. Referred to Committee on Property.

Mr. RANDOLPH submitted the following :

June 13, 1876.

The Committee on Teachers for the White Schools of Washington and Georgetown, report that, pursuant to notice duly given, an examination of candidates for promotion and appointment as teachers was held at the Franklin Building, May 27.

Seventeen candidates were present.

The committee recommend that the following certificates be granted by the Board : For a Grammar School, Milton C. Dent ; for an Intermediate School, Lillie C. Camp ; for a Secondary School, Mary E. Trask and Cornelia O. Lazenby ; for a Primary School, Emma J. Woodward.

The committee submit the annexed communication from the Superintendent, and recommend that the graduates of the Normal School therein named be granted a diploma, in pursuance of rule 7, relative to the said Normal School.

OFFICE OF SUPERINTENDENT OF PUBLIC SCHOOLS,
 FRANKLIN BUILDING,
 WASHINGTON, D. C., June, 13, 1876.

JOHN RANDOLPH Esq.,

Chairman Committee on Normal School and Teachers.

DEAR SIR: The following named graduates from the Washington Normal School, having taught in the Public Schools of Washington one year, and, in my judgment, having given evidence of ability to govern and instruct a school, I beg leave to recommend that the diploma of the Normal School be conferred upon them: Sarah Bartlett, Mary Witman Burchard, Sallie Small Childs, Mary Katharine Garst, Olivia Hambly, Florence Hinton, Nellie Mary Mack, Julia Ida Murray, Helen E. Ralph, Kate Reyburn, Effie Rodier, Helene Ida Schimmelfennig, Annie Morrow Wilson, Kate Adela Wilson.

Respectfully submitted.

J. ORMOND WILSON,
Superintendent.

Mr. DETRICK, from the Committee on Property, reported as follows:

The Committee on Property, pursuant to instruction contained in a resolution of this Board passed at the stated meeting held in April last, have inspected the Janitor's quarters in the Public School Buildings, and, with a few exceptions, find them in good condition and well adapted to the uses intended.

Among the exceptions are the quarters at the Wallach Building, which consist of three rooms, occupying altogether a space of about 26 by 32 feet, ample in extent, but very damp and gloomy, being almost wholly below the surface of the ground adjacent to the walls of the building outside. These rooms are unfit for the residence of the Janitor's family, and no rent should be charged for them while in their present condition.

In the judgment of the committee these quarters can be made habitable by removing the earth adjacent to the building on the southwest corner to the depth of several feet, and by making an area next to the basement wall on this part of the building not less than four feet in width, carried down to a depth below the floor of the rooms.

An estimate of the cost of this improvement, including a door in the basement wall, concreting floor, plastering, &c., is submitted herewith.

At the Lincoln Building, the committee find one room 16 by 18 feet in extent, (at present used for storage purposes,) and not sufficient of itself for a family residence; but, in the opinion of the committee, good quarters can be made in this building by adding to this room a portion of the playroom adjacent to it on the south, and by cutting a door-way through the basement wall on the west side. Estimates of the cost are herewith submitted.

R. B. DETRICK,

E. CHAMPLIN,

JOHN H. BROOKS,

B. F. PACKARD,

Committee on Property.

Total.....	<u>\$478 50</u>

GEORGE H. LOVELESS,

Mr. DETRICK, from the Committee on Text-Books, submitted the following:

In response to the resolution instructing the Committee on Text-Books to inform this Board "whether any modification of the course of study in geography, requiring the use of text-books on the part of the pupils, can properly be made, which shall confine it within narrower limits," and "whether there are text-books now available which contain in a single volume, or at most in two volumes, all the matters and things which ought to be contained in a text-book on geography for the Public Schools of this District," &c., the Committee have to report: 1st. That they deem it inadvisable at this time to abridge the course of study on geography requiring the use of text-books. 2d. In the judgment of the Committee the text-books on the subject of geography might be reduced to two in number without detriment to the efficiency of instruction in that branch of study, and with considerable reduction of expense to parents. The Committee designate Nos. 1 and 2 of the Eclectic Series, Wilson, Hinkle & Co., publishers; Swinton's Elementary and Complete, Ivison, Blakeman, Taylor & Co., publishers; Nos. 1 and 2 of Our World, Gwin Brothers, publishers, as in each case meeting the requirements of the resolution. The prices are as follows: Eclectic, No. 1, 80c., No. 2, \$1.50—total, \$2.30; Swinton's Elementary, \$1.20, Complete, \$2.00—total \$3.20; Our World, No. 1, 94c., No. 2, \$2.00—total, \$2.94.

Responding to the resolution requesting similar information as to the course of study and text-books in arithmetic, the Committee have to report that in their opinion it is not advisable to abbreviate the course of study in that branch, and that they are not prepared to advise a reduction in the number of text-books on that subject now in use in the Public Schools.

Pursuant to the resolution requiring a list of the publishers of the several text-books now in use in the Public Schools of this District, the Committee submit the following, viz: Franklin Readers, Brewer & Tileston, Boston; Worcester's Spellers and Dictionary, Brewer & Tileston, Boston; Davies' Arithmetics, A. S. Barnes & Co., New York; Davies' Elementary Algebra, A. S. Barnes & Co., New York; Davies' Elementary Geometry, A. S. Barnes & Co., New York; Cornell's Geographies, D. Appleton & Co., New York; Warren's Geographies, Cowperthwaite & Co., Philadelphia; Kerl's Grammars, Ivison, Blakeman, Taylor & Co., New York; Spencerian Copy-Books, Ivison, Blakeman, Taylor & Co., New York; Gray's Botany, Ivison, Blakeman, Taylor & Co., New York; National Music Charts and Readers, Gwin Brothers, Boston; Smith's Drawing Book, Card, and Manual, L. R. B. DETRICK,
F. W. MOFFAT,
J. S. BROWN,
HENRY JOHNSON.

Received and ordered printed for consideration at the next meeting.

Mr. CHAMPLIN submitted the following minority report:

The Text-Book Committee, to whom were referred the resolutions offered by Mr. Hovey at the meeting in April last, respectfully report:

That the resolution was first presented to them by the chairman at a meeting held on Saturday evening last, and that they have not been able to reach a satisfactory conclusion.

They further are of the opinion that the scope of the inquiry is so extensive that a due consideration of it would require a thorough examination of many series of works, which would necessarily consume much time. At this season of the year, and with the cares incident to the closing of the schools and the preparation for reopening, your Committee feel that they cannot do justice to the subject, and make such a report as they could properly lay before the Board, with reasons therefor, during the remainder of the school year; nor do they believe that the members of the Board, if such a report was presented, would be able—especially as many of the members will be absent from the city—to give to it that consideration demanded by a subject fraught with so serious consequences.

They further believe that were they prepared to report, the present time is not propitious for a change of text-books, and that a proposition to make one would excite a feeling in the community that would be prejudicial to the best interest of the schools. For these reasons they recommend the adoption of the following resolution:

Resolved, That it is deemed inexpedient to make any change in text-books to take effect at the commencement of the next school year.

Respectfully submitted.

E. CHAMPLIN.

Ordered printed for consideration at the next meeting.

Report ACCEPTED and nominations CONFIRMED.

Mr. LLOYD submitted the following report, with several petitions of citizens asking retention of Mr. J. E. Thomson as Principal of the Fourth District :

*further on Thomson case
pages 118-24, 132, 133, 138-41, 142.*

The minority of the Committee on Teachers respectfully recommend the appointment of Mr. John E. Thomson as Principal of the Fourth District, for the following reasons:

First. His long and efficient services in the Public Schools of this city, embracing a period of more than twenty-seven years.

Second. The parents and citizens of that school district, with few exceptions, strongly desire and recommend his reappointment.

Third. There are no substantial complaints of his school administration in the district, no charges of inefficiency emanating from parents or pupils, and in the absence of such charges, sustained by ample proof, we decline to concur in his removal from those schools.

While we admit the legal right of the Board to omit the appointment of any teacher proved to be inefficient, long-established usage, beginning from the very foundation of our school system, has established the principle that our teachers should not be changed, except for manifest neglect of duty or inefficiency. A reversal of this principle must necessarily make our teacherships public offices, places of political patronage, which in the end must corrupt and demoralize our whole Public School system.

B. F. LLOYD.

MR. CHAMPLIN moved to amend the minority report by substituting the name of S. J. Thomson as Principal, and I. Fairbrother, Assistant, Male Grammar School, and presented a petition of a number of citizens asking a change of Principal in the Fourth District.

The report, with nominations and all the papers, were referred to Committee on Teachers of the White Schools.

The Sub-Board of the Third District made the following nominations:

Miss Mary Dearing to be Acting Teacher of Female Grammar School.

Miss Mary E. Bohrer, Sub-Assistant.

Appoint Miss Mary A. Mirick Acting Teacher of Secondary No. 3.

Confirmed.

MR. JOHNSON, from the Committee on Teachers of the Colored Schools, reported back the following nominations and requested the confirmation of the Board:

JUNE 30, 1876.

At the meeting of the Board held June 26, 1876, there were referred to the Committee on Teachers the following preamble and resolutions, submitted by the Sub-Board of the Second District, to wit :

"Whereas, in the judgment of the Board, and in pursuance of the suggestion of Superintendent Wilson in his Fifth Annual Report, an advanced grammar school for girls has become necessary to relieve the pressure upon the existing female grammar schools of Washington and Georgetown,—to equalize the grade of study in said schools, and to afford an additional year's training to those seeking to enter the Normal School—

"*Resolved*, 1. That such a school, to be denominated 'The Advanced Female Grammar School for Washington and Georgetown,' be organized at the commencement of the ensuing school year.

"2. That Georgia Lane be and she is hereby appointed Principal of said school.

"3. That the Committee on Teachers in connection with the Superintendent be hereby instructed to prepare and submit to the Board at its stated meeting in August next a plan for organizing said school and the course of study therein."

The committee, after carefully considering the above proposition for the establishment of an advanced grammar school, to which a proportionate number of pupils best qualified to enter the ninth grade shall upon examination be transferred from the several female grammar schools of the First, Second, Third, Fourth, Fifth, and Sixth Districts, are of the opinion that such a school should be established without further delay, and they would therefore unanimously recommend the adoption of the aforesaid resolutions and to which they would append the following :

Resolved, 4. That said school be located in the Seaton School Building.

JUNE 30, 1876.

GEO. W. DYER,
Of Sub-Board First District.

Mr. HOVEY submitted the following:

Whereas, in the issue of the *Evening Star* of June 30, 1876, there appears an article entitled "Public School Matters," containing the following paragraph, namely:

"Some of these persons have by brazen cheek and persistent lobbying got on the Board, and, though forming but a small portion of the membership, they have by insidious engineering managed to carry many of their points, and particularly to get themselves placed on committees where they could do themselves 'the most good,' and where they could strike stealthy blows at their opponents. In fact until their advent such a thing as lobbying for the position was unknown, and the practice of seeking the place for money-making purposes was also unknown."

Resolved, That a committee of three be appointed by the chair to inquire and reply to this Board whether there be any fact to justify such statements.

Agreed to unanimously, and the chair announced as the committee Messrs. Dyer, Reyburn, and J. S. Brown. *See page 128.*

Dr. REYBURN called up his resolution relative to Sub-Boards nominating teachers direct to this Board. Consideration deferred.

On motion the Board adjourned.

J. ORMOND WILSON,
GEO. F. T. COOK,
Superintendents.

Mr. Packard, from Committee on Teachers of the County, submitted the following report:

WASHINGTON, D. C., July 11, 1876.

GENTLEMEN: Your Committee on Teachers for the County Schools, to whom was referred for investigation and report the nominations made by the Sub-Board of the Sixth District, would respectfully recommend that the following list be confirmed by the Board.

It has been deemed advisable by your committee to drop three white teachers in charge of colored schools on the ground that everything being equal colored teachers should be given the preference in the colored schools. When the county schools were first opened it was found necessary to employ white teachers for the greater portion of the colored schools, for the reason that competent colored teachers could not be procured. Among the colored youth who have been in school training during the past decade we are now enabled to secure some first-class teachers, and when the fact is considered that colored teachers are practically debarred from teaching in the white schools, justice would seem to indicate that this policy should be pursued.

Three of our very worthy lady teachers in charge of white schools have declined reappointment.

In one instance objection was made to a principal of a white school. The charges preferred were vague and of long standing, some of them dating as far back as 1869. As none of the charges were substantiated the teacher is recommended for reappointment.

Respectfully submitted.

Mr. Detrick, from the Committee on Text-books, submitted the following:

Resolved, That Swinton's Geographies be, and the same are hereby adopted for use in the Public Schools of the District of Columbia from and after the commencement of the next ensuing school year, in place of the books in the same study now in use: *Provided*, That no additional expense shall be made necessary to parents or pupils in consequence of this change in text-books, and that pupils having the proper text-books heretofore in use shall not be required to purchase others.

R. B. DETRICK,
HENRY JOHNSON,
F. W. MOFFAT.

Mr. Brown submitted the following minority report:

The undersigned, a minority of the Committee on Text-books, begs leave to dissent from the recommendation of the majority that the Swinton Geographies be adopted for use in the Public Schools of Washington and Georgetown for the following reasons, in brief:

Before the stated June meeting of this Board the committee met and, in response to previous resolutions of the Board referred to it, agreed upon a report to supersede the present series of Geographies, and to recommend the Eclectic Geographies, Nos. 1 and 2, in lieu thereof. At the meeting of the committee the agent of the "Our World" Geographies informed the committee in writing that he could procure the plates of, and his publishers would bind, the Apgar Treatise on Map-drawing in their second book at little or no extra cost to the pupils in case the Board should adopt their Geographies as text-books. A similar proposition was made by the agent of the Eclectic Geographies, provided they could make arrangements with the publishers of the Apgar Treatise for its use; and since the Apgar map-drawing is now a separate text-book, costing 75 cents, the committee thought it would be in the interest of economy thus to have the treatise in the Geography itself as it was already in the Swinton Geographies, the only other series which the committee believed to come within the scope required by the Board. At a subsequent meeting of the committee, just before the meeting of the Board, the chairman submitted to the Committee a report and resolution, to substitute the Eclectic Geographies for the Cornell, in accordance with the order of the Committee, and both the report and the resolution were approved by the members as correct. At the meeting of the Board, the chairman submitted the report of the Committee, but withheld the resolution. At an adjourned meeting of the Board, the chairman withheld the resolution. A reason was then stated for so doing, that Mr. Swinton and Mr. Perkins, the author and agent of the Swinton Geographies, being present in Washington, had declared to members of the Committee, that the Eclectic Geographies could not furnish the Apgar treatise, because the publishers of the Swinton Geographies had purchased the plates, and were the sole owners of the same. At a second adjourned meeting of the Board, the chairman withheld the resolution, though the undersigned called for it in open session of this Board. Shortly after that time, the members of the Committee were informed by the agent of the Eclectic, that his house had made provisional arrangement with the publishers of Apgar, by which it could furnish the treatise in case the Eclectic Geographies should be adopted. Since then, at the last meeting of the Committee, it appeared that both Mr. Swinton and Mr. Perkins had been here in Washington, and had shown dispatches from Apgar and from his publishers, to the effect that they had made no arrangement with the publishers of the Eclectic Geogra-

phies to furnish the latter the Apgar plates or sheets, and Mr. Swinton had assured members that the Eclectic publishers could not procure them.

Whereupon a reconsideration of the previous recommendation of the Committee was ordered, and a majority thereof voted to recommend the Swinton series of geographies for adoption in this District; whereas at the first meeting of the Committee this series received the vote of only one member.

Believing that the above result was brought about by the authors of the Swinton series and an agent of his publishers by statements not in accordance with facts and by improper means, to thwart the free action of the Committee, and to force upon it a series of Geographies which the judgment of the Committee never approved, the undersigned begs leave to recommend, in all reason and fairness, that the Eclectic, instead of the Swinton Geographies, be adopted in lieu of Cornell's, as originally directed by the Committee. He also desires opportunity to point out to the Board the very numerous defects and inaccuracies of the Swinton Geographies, believing, as he does that they are entirely unsuited to the wants of our Public Schools.

J. S. BROWN,
Member of Committee on Text-Books.

Ordered, that both reports do lie on the table as unfinished business for future consideration of the Board.

Mr. PACKARD submitted the following :

Whereas the text-books on Geographies now in use in the Public Schools are unsatisfactory *in matter*, and involve an outlay for each pupil of \$4.65, which is *too great* an outlay, and ought to be reduced; therefore, in order to secure *better* books at *less* expense, it is ordered by the Trustees of Public Schools, two-thirds thereof concurring—

1st. That Cornell's Geographies be stricken from the list of text-books prescribed for use in the Public Schools.

2d. That instructions in Geography shall hereafter be conducted by topics, so that more than one Geography may be used, and those pupils now having Cornell's or other Geographies, may continue to use them, and shall not be required to purchase the books hereinafter prescribed; but when new books are to be purchased they shall be the books herein-after prescribed.

3d. That — Geographies are hereby prescribed for use in the Public Schools for the District of Columbia.

Referred to Committee on Text Books.

Mr. PACKARD from the Committee on Teachers of the Sixth District submitted the following report:

Washington, D. C., August 8, 1876.

GENTLEMEN: Your committee to whom was referred the communication of Mr. F. Lugenbeel to the Honorable Commissioners, and by them transmitted to this Board for information, respectfully submit the following report:

Mr. Lugenbeel first says: "The committee upon the appointment of teachers in Washington County desired to remove me from my present position. I have conversed with the members of said committee, and they express no dissatisfaction with me, either officially or personally."

Inasmuch as teachers are appointed for one year only, it necessarily follows that their offices are vacant at the close of a school year—consequently there can be no removal. Your committee, therefore, only considered the advisability of reappointing Mr. Lugenbeel to his former position, and desires to state in general terms that Mr. Lugenbeel as an instructor of youth does not come up to the standard that we consider necessary, and *he has been so informed by members of this committee.*

Secondly, he says: "The change is simply for the purpose of filling my position with a friend of one of the trustees. The trustee referred to has never entered my school, and is totally destitute of any information concerning it personally."

Your committee pronounce the first clause contained in this charge as *unqualifiedly false*; as to the last clause, the trustees supposed to be referred to, was not required to visit Mr. Lugenbeel's school, since the school is not in that trustee's district, nor under his special supervision.

The facts in the case are that Mr. Shippen's application was presented, and he was first recommended by Trustee Smith. Prof. Mitchell men-

tioned several other reliable colored men that are applicants for positions as teachers in the County Schools, and it was at the suggestion of Trustee Packard that Mr. Shippen was designated as the successor of Mr. Lugenbeel.

Thirdly, he says: "The trustee of my district refused to sanction the proposed change, or nominate the party suggested to supply my place; but the committee, contrary to precedent, refused to him the usual courtesy of nominating the teachers who were to be under his personal supervision."

The Board is aware that the old list of county teachers was nominated *pro forma* and referred to your committee for investigation and report. Mr. Brooke, the trustee in charge of the first and second districts, was invited to set with the committee while considering the nominations for those districts, and heard the deliberations of the committee on each case as they came up in their order. The Sub-Board was immediately thereafter convened, and Mr. Brooke requested to make other nominations for the colored schools under his supervision. Mr. Brooke said he was not acquainted with any good colored teachers, and for that reason he would prefer to have some other member of the Sub-Board make the nominations for said schools—as an act of courtesy. Trustee Mitchell was requested to do so.

It will be seen by a copy of our report of the 11th ultimo, herewith submitted, that, for the reasons set forth in said report, the policy, qualifications being equal, of supplying colored schools with colored teachers has been adopted. In this particular case it is believed by your committee that the condition of the school will be improved.

Your committee trust that, in view of the facts herein set forth, the propriety of their action will be apparent.

Respectfully submitted:

B. F. PACKARD,
J. S. BROWN,
G. W. MITCHELL,

Committee on Teachers for the County Schools.

And moved that the report be accepted as the reply of the Board to the honorable Commissioners, and that the nomination of J. M. Shippen as acting teacher of school No. 4, 2d District, be confirmed.

JOHN RANDOLPH.
 GEO. W. DYER.
 CHAS. E. HOVEY.
 F. W. MOFFATT.
 B. F. LLOYD.

Adopted.

That having fully considered the evidence in relation to the past school record of Mr. McKee, and the credentials presented by Mr. Copp, they have determined to recommend the confirmation of Henry N. Copp, as principal of the first district.

Dr. REYBURN offered the following as a substitute :

"That the name of Mr. R. M. McKee be substituted for the name of Mr. Henry N. Copp as principal of First District Male Grammar School."

Lost.

The report was then agreed to.

Mr. RANDOLPH, from the Committee on Teachers, submitted the following report :

At the meeting of the Board, June 26, 1876, the nomination of John E. Thompson as supervising principal of the fourth district was referred to the Committee on Teachers.

A full hearing of the case has been had, extending through four protracted sessions of the Committee, during which twenty-eight witnesses were examined and a large mass of documentary evidence filed.

The objections of Mr. Champlin, as member of the sub-board of the fourth district, to the appointment of Mr. Thompson, and which led to the reference of the case to this Committee, were, at the request of the Committee, reduced to writing, and are as follows:

To the Committee on Teachers :

GENTLEMEN : I have felt it my duty not to concur with my colleague in renominating Mr. John E. Thompson to the office of principal of the Fourth District Schools for the ensuing year.

Some reasons for non-concurring were stated by me in a general way on a former occasion, and were repeated at the opening of this investigation.

The office of principal, as at present constituted, is one of complex duties, and it does not follow that a man who can perform some of these duties well, can necessarily, and for that reason, perform them all well.

I have never denied Mr. John E. Thompson's ability to teach the pupils of a single school acceptably; but I have questioned, and do question, his qualifications or fitness to perform the duties of principal acceptably; and while protesting that Mr. Thompson is a private citizen, not in the employ of the Board, and he has no more right to demand of me that I shall prefer charges against him and sustain them as a condition precedent to my right to vote for S. John Thomson, than S. John Thomson has to demand of Mr. Lloyd that he shall prefer charges against him and sustain them as a condition precedent to his right to vote for John E. Thompson. Nevertheless, I have no objection to stating again and a little more in detail, the reasons which have led me to the conclusion that Mr. John E. Thompson is not well adapted to perform the duties of the office of principal, and that Mr. S. John Thomson should be given a trial in that office.

1. I fully believe that Mr. S. John Thomson is more likely to be useful in the office of principal of the Fourth District Schools than Mr. John E. Thompson. This reason is controlling, unless I yield my convictions of duty, violate my oath of office and abandon the just rights of the children of the Fourth District, to subserve the interest of a single individual.

2. Mr. S. John Thomson, when formerly engaged in the Public Schools, was the leader, his school having taken the highest honor—the Kendall Scholarship—seven times to anybody's else once.

3. While employed in the Public Schools he gave his whole time and energy to them, and did not seek out other and outside avocations. He is an educator and nothing else. When we employ him, we know we shall get all there is of him, be that more or less.

4. Mr. John E. Thompson has occupations of a business nature, not connected, even remotely, with his school duties. The faithful performance of this outside business must occupy some time and attention, and to that extent must divert from his office that efficiency which results from entire concentration of time and mind upon one calling. A teacher needs his time *out of school* for rest and for studious preparation for his duties *in school*.

5. He has disregarded the rule of the Board, requiring principals to be in their offices thirty minutes before the time for opening each morning session of their schools, and has seldom been found in or about the school buildings during the long recess between 12 and 1 o'clock, a time when the presence of the principal is much to be desired, and has not satisfactorily cared for the conduct of the pupils immediately after their dismissal from school.

6. He has not been satisfactorily efficient in protecting the public property under his control from unnecessary injury.

7. He has not been satisfactorily efficient in securing and maintaining order and cleanliness in his own school room, or cleanliness in and about the outhouses or privies connected with the school buildings, for which he is made by the rules specially responsible.

8. He has failed so to supervise and control the annual written examinations of the schools in his District, and especially of his own school, as to insure trustworthy results. So poorly, not to use a harsher word, has he attended to this important and very delicate duty, that grave suspicions of wrong-doing and unfairness have gone abroad; and thus, under his management, has doubt and probable dishonor been brought to the door of the old Fourth District.

9. He has allowed a certificate to be filed in the office of the Superintendent respecting one of these examinations, which is untrue as to an important fact.

10. Under his administration feuds between parents and principal have grown up in the District to a considerable extent; and whether the fault be theirs or his, these feuds are not likely to be allayed by his reappointment.

11. These feuds have to some extent spread among the friends of the immediate parties, and have thus increased the mischief.

There are one or two related matters which I deem proper to state in this connection.

(A) Mr. Thompson has announced that his friends, if he is not re-elected, will take the matter in hand, and will have a certain Trustee (meaning me) put out of office in less than ten days. "I don't propose to black Champlin's boots, and will spend \$500 dollars to show him up and maintain my cause."

(B) His "next friend," Mr. Crosby Noyes, has already began the "showing up" business by printing and publishing in his newspaper a scurrilous attack on me. (*Star July 1st.*)

(C) His "next friend" has also taken the whole Board in hand, and has printed and published in his newspaper injurious allegations against its members indiscriminately, (no one is named,) which allegations, are so far as I know and believe, wholly untrue. The article referred to, (*Star June 30th,*) and others subsequently printed and published, indicate a conspiracy between Mr. John E. Thompson and his "next friend" to coerce the Board into the re-election of said Thompson, whether they can conscientiously do so or not.

Respectfully,

E. CHAMPLIN.

WASHINGTON, D. C., *August 2, 1876.*

The demand of Mr. Thompson for a thorough investigation led the Committee not to confine the inquiry strictly to the points presented by Mr. C. in his paper, but to admit all evidence offered *pro* and *con* affecting Mr. Thompson's official or personal status. Nor was the hearing of testimony in his behalf closed until, in response to the question of the chairman, he said that he had nothing further to offer.

The Committee, after due consideration of all the facts, have failed to reach a unanimous conclusion.

In the judgment of the majority of the Committee, the nomination of John E. Thompson should not be confirmed, and they so recommend.

The undersigned, constituting two of said majority, submit the following statement of the principal facts of the case and their conclusions thereon:

1. *Care of public school property.*

The Committee, after hearing all the evidence offered as to the condition of the furniture and appurtenances of the male department of the Jefferson School Building, made a personal inspection of the same.

The school furniture of the ten boys' schools in this building was all new four years ago, with the exception of Mr. Thompson's and one other set, both of which, however, were put in good repair at that time.

The present condition of this furniture shows that it has had very bad usage; and, without going into details, it may suffice to say that its condition contrasts very unfavorably with that of the furniture in the male departments of Seaton, Wallach, and Franklin Buildings, which may be

taken as representatives of the three other school districts of this city; and this comparison is the more damaging when the relative length of time the furniture in these several buildings has been in use is taken into account. The undersigned, upon the close of the hearing of the case, visited the above buildings, in order to assure themselves of the facts by a personal examination.

The conclusion which the present mutilated condition of this furniture compels us to is that such a result proves that the standard of good order, neatness, and care required by the rules of this Board, and generally upheld in the other districts, has not been properly enforced here, and that a sufficiently vigilant supervision has not been maintained by the supervising principal over the vicious and destructive habits of boys under his care.

For the improper location, defective construction, and inadequate accommodations of the water-closets the principal cannot be held responsible, and that such a nuisance should be suffered to remain in its present condition reflects no credit upon the local trustees. Still, the effects of indecent violence here so plainly apparent, and which have all been wrought within two years, again compel the conclusion that the principal has failed to properly restrain the gross improprieties of boys of these schools while on or about the premises; and, from the evidence had upon the hearing, we are led to infer that this failure results more from want of tact, plan, and management than from inattention or negligence.

It appears from the evidence that Mr. Thompson was placed in general charge of the Jefferson Building immediately upon its occupancy four years ago; that a copy of printed regulations, adopted by the sub-board of that district (one of which regulations specifically assigns to the principal of the male grammar school the general care of the building), was officially delivered to Mr. Thompson.

This was in pursuance of a well-established practice in the public schools throughout the city, before the creation of the office of supervising principal, of entrusting to the sole or principal male teacher in buildings containing a number of schools chiefly taught by young ladies the general care and supervision of the property, especially of the out-door appurtenances. Mr. Thompson's responsibility for the general care of said building dates, therefore, from the time the schools first convened in it.

The fact that Mr. T. has not been properly sustained by a discordant sub-board during the past year, nor had the most efficient services of a janitor, should not change the verdict of a jury on the count of official responsibility; but it might, were there no other counts, induce the judge to mitigate the severity of the sentence.

2. *Written examinations.*

The evidence relating to the annual written examination of Mr. Thompson's school in June last shows that the sealed packets containing the questions were opened by the principal (or his son) in advance of the time designated on said packets in writing by the Superintendent; that the pupils communicated with each other while the examination was in progress; that the method of revising the work by an exchange of papers by the teachers of the male and female grammar schools, as directed by the Superintendent, was changed during the progress of the examination without authority from the Superintendent; that this change was suggested by Mrs. Martin, of the female grammar school, because she thought Mr. E. Thompson, the assistant, was not satisfied with the marking; that by too liberal marking the average percentage of Mr. Thompson's school was

raised at least ten per cent., on his own admission, above what it ought to have been ; that the marking in the male grammar school of the second district (Mr. Gage) was also made by its own principal with consent of the Superintendent, first obtained, and the average is twenty per cent. lower than that of Mr. Thompson's school ; that he (Mr. T.) did not give the matter his personal attention at all.

These facts taken together go to shake our confidence in the fidelity of the principal, as well as in the reliability of the result reached by an examination thus conducted.

3. Personal habits.

The principal facts in evidence as to the personal habits of John E. Thompson are these, as testified to under oath by several witnesses ; or, as admitted by himself, he has used tobacco in the school-room, although its use is forbidden to the pupil by our rules. He has so far at times lost his self-control as to call his pupils liars. He has been seen by his pupils to frequent public drinking saloons in the city, and has been seen by them while there to take intoxicating liquors. He has been frequently seen by citizens entering such places out of his school district during school hours. He admits that he drinks, at public bars in this city, beer and whisky. He declares that he does not drink to intoxication, and that his indulgence is so moderate as not to interfere with his duties ; that in the use of whisky he is simply obeying the instructions of his physician.

These facts, in our judgment, present a very serious aspect of this case.

The teacher is in *loco parentis*, and if the example of the parent is so controlling upon the life of his child, the example of the teacher is equally so. The habits of teachers—so important a matter as the use of intoxicating drinks—cannot be ignored by those upon whom their fellow-citizens have imposed the sworn trust of choosing public instructors for their children.

The plea that the use is so moderate as not to disqualify him for his school work, does not touch the question of the pernicious influence of such an example upon boys. It is not *how much* he drinks, but that it is his practice to visit public bars, and that his boys know it.

Neither will the set-off of acting under medical prescription avail, because a man drinking whisky under the advice of a physician, need not, and he certainly would not, unless a man of social habits so-called, drink openly at public bars. When the doctor finds his patient pursuing such a course, he generally orders a halt.

It is very humiliating that it appears in evidence that Mr. T. has taken the social glass at public bars, not only with members of this Board and ex-trustees who now advocate his reappointment, but with those also who oppose it.

This only makes it the more imperative for this Board to place itself by its action in this case squarely on the side of public morals, and to determine, at least so far as this precedent can fix it, that the training of our youth shall not be committed to those whose example may in anywise tempt to ruin.

This case has excited a painful interest, not only from the facts developed, but from the long and successful career of Mr. Thompson as a teacher. The expectations raised by his former success as a teacher, have not been realized in his new position of supervising principal, and the committee would willingly have thrown over his personal faults the man-

tle of charity, had not this public exhibit been compelled by the indiscreet acts of some of his friends.

JOHN RANDOLPH.
GEO. W. DYER.

I concur in the conclusion of my associates, Messrs. Randolph and Dyer.

CHAS. E. HOVEY.

Mr. LLOYD submitted the following minority report from same Committee:

The undersigned minority of the Committee on Teachers respectfully report that, after a very careful examination of the evidence in the case of John E. Thompson, we are unable to concur in the conclusions of the majority report for the following reasons:

That the allegations that Mr. Thompson has not taken proper care of the school property, as Supervising Principal of said District, has not been sustained by any evidence, but, on the contrary, proof has been elicited that the school property is in as good condition *now* as when he took charge of it, as Supervising Principal, two years ago, reasonable wear excepted. A personal examination of Jefferson School Building by the Committee developed the fact that the desks in the Male Grammar School, having been in use ten years, are in better condition than other desks in the same building that had been used only four years. As to the water-closets on the male side of the building, situated two hundred feet in the rear, it clearly appears, from the evidence, that the Principal is not in fault for their condition, inasmuch as the Janitor is absent much of the time during the school hours attending to his private business elsewhere.

The success and efficiency of Mr. Thompson as a teacher are sustained by abundant testimony, and is admitted by the Committee and Superintendent. Mr. Thompson's efficiency as a teacher was not questioned by the Committee. Mr. Thompson's qualifications as a Supervising Principal and teacher having been proved or admitted at the very last moment, an effort was made to attack his private character as a man. A formidable list of restaurants and principal hotels was presented, and an inquiry was made whether Mr. Thompson had been in all of these restaurants. Mr. Thompson, in order to save time and avoid any appearance of concealment, frankly admitted that he may have, in the course of a life-time residence in this city, visited any, or perhaps all, of them chiefly for lunch, and he positively denied visiting them as a habit for the purpose of using intoxicating drinks. Although a declaration was made that witnesses were present to prove that he had been in all of these places, not one of them was asked to specify one, and the aggregate of the proof of all the witnesses together was that he might have been in restaurants or hotels a dozen times within the last two or three years. To this may be added the testimony of Mr. Ballantyne, to the effect that he had seen Mr. Thompson in past years, and much less frequently during last year, going into restaurants about noon. Mr. Ballantyne does not testify as to his drinking. The evidence shows that Mr. Thompson received invitations from Trustees to visit restaurants and drink with them, but no word of reproof was ever given by a Trustee that the example was bad for his pupils. There was not a scintilla of evidence adduced that Mr. Thompson had ever drank with, or in the presence of, his pupils, or ever been in the least under the influence of liquor. There is no rule of the Board interdicting a Trustee or teacher from entering a hotel or restaurant, and

it is difficult to conceive any reason why the example of a Trustee is less important than that of a teacher.

In the case of Mr. Thompson the evidence shows that, so far from having been reproved for his course, he has been encouraged in it by the Trustees. Mr. Thompson having lived forty-five years in this community, where the views in regard to this matter are not so rigid as in some more northern cities, it is not surprising that he fell in with the customs of the people among whom he has lived so long. It would not be unreasonable to expect that those who entertain different views should at least caution and reprove before undertaking to inflict the extreme penalty for nonconcurrence with them. In all points of morals and practice, in which there is any common agreement of opinion, Mr. Thompson is not only above reproach, but is a fit example for the youth of this city. The charge that Mr. Thompson has called boys in school "liars," testified to by two or three ex-pupils, who evidently appeared to be influenced by personal hostility, is flatly contradicted by the testimony of thirty pupils, who have been attending his school during the last three or four years cotemporary with the boys who testified adversely. The statement of these pupils is hereto annexed, and is made a part of this report.

For twenty-seven years Mr. Thompson has been a teacher in the Public Schools of this city, annually receiving from the Trustees the strongest expressions of their approval. Wherever the schools are known his name is mentioned with honor. Hundreds of our best citizens are living testimonials to his efficiency. No stain rests upon his character—even discoverable by the microscopic inspections of this investigation. The charges originally alleged against him have been disproved or abandoned. The confidence so long reposed in him has not been shaken. All of the ex-Trustees of the District, with two exceptions, which he has so long served, with many of his old pupils, representing hundreds more, have testified in the strongest terms to his efficiency as a teacher and Supervising Principal and the almost unanimous desire of the people of that District for his retention.

To remove him would be not only to disregard the wishes of those most interested, but it would be a blow at the confidence of the public in the management of our Public Schools.

The minority of the Committee therefore recommend that Mr. John E. Thompson be confirmed as Teacher and Supervising Principal of the Fourth District.

F. W. MOFFATT.

Mr. Champlin, from the select committee, reported as follows:

To the Board of Trustees of Public Schools of the District of Columbia:

GENTLEMEN: The undersigned select committee, appointed at the May meeting of your Board to investigate abuses alleged in letter of William Syphax, returned herewith, respectfully report that they addressed the following communication to Mr. Syphax:

"WASHINGTON, D. C., June 5, 1876.

WILLIAM SYPHAX, Esq.

DEAR SIR: I am directed by the select committee of three, to whom your communication to the Commissioners of the District of Columbia was referred by the School Board, to request you to furnish them with the charges and specifications against the colored sub-board and Miss Matthews, teacher in Grammar School No. 1, Sumner Building, so that the accused may know seasonably what the particular charges are, and also that the proofs may be confined within due limits.

You will understand that you must make your specifications of charges full and distinct, as, after any evidence is taken, the committee will not allow new charges to be made.

When this is done, the committee will appoint an early day for the hearing, of which you will have seasonable notice.

Very respectfully,

(Signed)

E. CHAMPLIN,
Chairman of Committee.

And received the following answer:

WASHINGTON, D. C., June 8, 1876.

E. CHAMPLIN, Esq.,

Trustee and Chairman Special Committee:

SIR: In reply to your letter of the 5th inst., informing me that my communication of May 6th to the Commissioners of the District of Columbia had been referred to the Special Committee, of which you are chairman, I would respectfully state that I do charge that the statements and reports made to your Board by the Colored Sub-Board, and also that of the teacher, Miss Matthews, are not true. In my communication to the Commissioners you will observe that I made the request that the Sub-Board and the teacher against whom I made the charge be required to support their statements under oath, and that myself and others be allowed to do the same. I am ready to appear before the committee authorized to fully investigate this matter, as requested in my communication to the Commissioners, and do respectfully request that the Colored Sub-Board, Miss E. V. Brown, principal of Sumner School, and Miss Matthews, teacher in room No. 1, with her school record, may be present, and, with myself, support our statements under oath. No just and honest person can hesitate to do this.

I am, sir, very respectfully yours,

W. SYPHAX,
1641 P Street, N. W.
FEBRUARY 23, 1876.

To Mr. G. F. T. COOK,

Sup't Colored Schools:

SIR: Having been instructed by Miss Brown to furnish the office with a written statement concerning my conduct to Mr. Syphax this morning, I

would state that I did ask Mr. Syphax from the school-room because he tried to compel the children to listen to him while he told them what he termed their rights. His manner during the whole time was extremely disagreeable and annoying—so much so that I was obliged to leave the room entirely. While in the room I forbade him talking to the pupils, as he insisted upon telling them they should not be treated like dogs. I then asked him out. He also tried to impress upon my mind clearly that it would be Judgment day, and every hair of my head turned as white as my apron, before his daughter should ask my pardon for leaving the school-room on Monday without permission. I do not know of any other charge he could make, unless it be this, that when in the class-room he told me his daughter had better breeding than I had, I called him an impudent man.

Hoping this will prove satisfactory, I remain respectfully,

L. P. MATTHEWS.

WASHINGTON, D. C., Feb. 23, 1876.

MR. COOK,

Superintendent Schools:

SIR : In accordance with your instructions I hereby forward a statement of the interview between Miss L. P. Matthews and Mr. Wm. Syphax :

On Monday, the 21st instant, Maria Syphax, a daughter of the gentleman named above, was called to Miss Matthews' desk because of misconduct. Maria refused to come forward, and stated that she had been told by her mother not to stand on the platform. She said, "I shall go home," and left the school without obtaining the permission of her teacher. This morning Maria returned, accompanied by her father. Miss Matthews requested Mr. Syphax to retire to a private room, as she did not wish to discuss the matter in presence of her pupils. During the interview Mr. Syphax said that Miss M. treated the pupils as if she considered them dogs. The teacher became incensed at the remark and returned to her school-room. Mr. Syphax followed her, and addressed some remarks to the pupils in justification of the action of his daughter. Miss Matthews said, "Mr. Syphax, you shall not address my pupils," or words to this effect. He again addressed the school, when Miss M. bade him leave the room.

Mr. Syphax then had an interview with me; Miss Matthews was present. They were both very angry. Miss M. stated to Mr. Syphax that his daughter must apologize. He said that Miss Matthews may wait until her hair is white, but she will not receive the apology. Miss Matthews returned to her duties. Mr. Syphax said that he had been insulted by a teacher, and requested me to accompany him to the school-room. I declined, and told the gentleman that I could not have a repetition of the scene; that if he had been wronged, the school officers would adjust the matter. The third time he went into the school and essayed to address the pupils. In order to avoid further trouble, I asked Miss Matthews to leave the school-room, and said that I should be forced to dismiss the school if Mr. Syphax continued his remarks. The school was in disorder, the excitement was increasing, and I was powerless to subdue it. At this point Mr. Syphax left the room.

Very respectfully,

E. V. BROWN.

Principal,

On Thursday evening, June 29th, and on Friday evening, July 14th, 1876, the Committee met at the Sumner Public School Building, all the members being present, as also were Mr. Syphax, Miss Matthews, Miss Brown, and members of the colored sub-board; Mr. G. Y. AtLee acting as secretary.

It will be observed, by reference to the correspondence above and to the testimony, that Mr. Syphax limited the subjects of investigation to the following matters, viz.:

- 1st. The truth of the letter of Miss Matthews.
- 2d. The colored sub-board made the verbal statement in the general Board that Mr. Syphax's complaint was under investigation by them, which statement was not in fact true.
- 3d. That the colored sub-board, in their report to the general Board on April 11th, 1876, made reflections upon Mr. Syphax personally which were uncalled for, and in fact untrue.

Upon the first matter of investigation above referred to, the Committee find, after careful examination, that the recollection of Mr. Syphax agreed in most particulars with the statements contained in the letter of Miss Matthews above referred to; and in the instances where the testimony of Miss Matthews and Mr. Syphax conflicted, the statement of Miss Matthews was corroborated by that of Miss Brown, the principal, while the statement of Mr. Syphax was not supported by any other proof.

The Committee, therefore, find that the first article of Mr. Syphax's complaint as above stated was not proved.

Upon the second matter of investigation above referred to, the Committee find that Mr. Syphax is contradicted by the entire colored sub-board, and is supported by no testimony except his own.

The Committee, therefore, upon the second article of Mr. Syphax's complaint as above stated, find that the same has not been proved.

Upon the third matter of investigation above referred to, the Committee find that the portion of the report of the sub-board of April 11th, 1876, which was the subject of complaint upon the part of Mr. Syphax, was an extract from a report of the public schools of Alexandria, Va.

The general propositions and reflections of the writer of the extract referred to were undoubtedly true in fact as applied to the particular schools in Alexandria and to similar schools elsewhere, and have no necessary application to Mr. Syphax.

The Committee, therefore, find that the charge as stated in the third article is not proved. The Committee are, however, of opinion that the extract in question was unfortunate under the circumstances of the case, and might be well supposed by Mr. Syphax to convey a personal reflection against him, and was uncalled for in a report which should have been confined to facts alone.

In conclusion, the Committee find upon all matters of complaint made by Mr. Syphax against the colored sub-board, as above stated, that the same were not substantiated by Mr. Syphax, and, so far as appeared to the Committee from the evidence, such complaints had no foundation in fact.

E. CHAMPLIN.
ROBERT REYBURN, M. D.
GEO. W. DYER.

Report adopted.

Mr. DYER, from the Select Committee to investigate certain charges against the Board by the *Evening Star*, submitted the following report:

h105 Your Special Committeee, to which was referred the following resolution :

Whereas, in the issue of the *Evening Star* of June 30, 1876, there appears an article entitled "Public School Matter," containing the following passages, viz :

"Some of these persons have by brazen cheek and persistent lobbying got on the Board, and though forming but a small portion of the membership, they have by insidious engineering managed to carry many of their points, and particularly to get themselves placed on committees where they could do themselves 'the most good,' and where they could strike stealthy blows at their opponents.

* * * * *

In fact until this advent such a thing as lobbying for position was unknown ; and the practice of seeking the place for money-making purposes was also unknown."

Resolved, That a committee of three be appointed by the Chair to inquire and report to the Board whether there be any fact to justify such statement.

The Committee beg leave to submit the following correspondence in the matter:

519 SEVENTH STREET, WASHINGTON, D. C. July 7, 1876.

Mr. CROSBY NOYES, *Editor Evening Star*:

DEAR SIR : I enclose a copy of a resolution which was adopted at the last meeting of the Trustees of Public Schools.

Will you kindly lend your assistance in the investigation of the truth of the charges contained in the extracts from the editorial embraced in the resolution, by putting the committee in possession of the information upon which the editorial was based.

Very respectfully,

(Signed.)

GEO. W. DYER, *for the Committee*.

519 SEVENTH STREET, WASHINGTON, D. C. July 7, 1876.

Messrs. DENNISON, KETCHAM and PHELPS,

Commissioners of the District of Columbia :

GENTLEMEN : I enclose a resolution which was adopted at the last meeting of the Trustees of the Public Schools.

If you have any information as to the truth or falsity of the charges contained in the extracts from the editorial embraced in the resolution, will you kindly communicate such information to the committee.

Very respectfully,

(Signed.)

GEO. W. DYER, *for the Committee*.

"THE EVENING STAR," WASHINGTON, July 11, 1876.

DEAR SIR : Illness has prevented me from sooner answering your note of the 7th inst., in which, on behalf of your committee, you ask to be put in possession of the information upon which an editorial of the *Star* of June 30, headed "Public School Matters," was based.

Permit me to say, with entire respect for your committee, and the majority of your Board, and with a full recognition of the courteous tone of your enquiry, that this is an investigation that the *Star* has undertaken on its own account, and it cannot consent to surrender that work to other hands, however competent and impartial.

This paper has already succeeded in smoking out one, at least, of the persons charged with seeking and pertinaciously retaining a place on the School Board for selfish purposes, and it proposes to continue the work of exposing the operations of this clique, or ring, so long as it has any footing in the Board. For twenty-four years the *Star* has devoted a large amount of space and thoughtful attention to the interest of our Public Schools, and feels that it has a right to speak, and to speak plainly, when it sees, or thinks it sees, those interests threatened.

Very respectfully,

Col. GEO. W. DYER, *Chairman.*

CROSBY S. NOYES.

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
WASHINGTON, June 8, 1876.

DEAR SIR: Referring to yours of the 7th instant, transmitting copy of a resolution of the Board of Trustees of Public Schools appointing a committee "to inquire and report to the Board whether there be any facts to justify" certain statements contained in an article in the *Evening Star*, of June 30, 1876, entitled "Public School Matters," I am directed to reply to your request for information respecting the truth or falsity of the charge in question, that there is nothing on the files of this office relating to the subject matter of enquiry, nor are the Commissioners advised of any disreputable conduct on the part of any of the Trustees, in any respect.

Very respectfully,

W.M. TINDALL, *Secretary.*

In view of which, and from knowledge respecting the several Trustees in the possession of your committee, they conclude and so report, that there is no foundation in fact for such charges against any member of this Board.

GEO. W. DYER,
ROBERT REYBURN, M. D.,
J. S. BROWN,

From schools of the first district.....	\$195 95

ADJOURNED MEETING.

FRANKLIN SCHOOL BUILDING, *August 22, 1876.*

Pursuant to adjournment, the Board of Trustees of Public Schools met on the above date : W. W. Curtis, Esq., in the chair ; Mr. John H. Brooks, secretary.

Present : Messrs. Champlin, Detrick, Dyer, French, Hovey, Johnson, Mitchell, Moffat, Randolph, Ryder, and Reyburn.

The secretary presented the following communication :

OFFICE COMMISSIONERS DISTRICT OF COLUMBIA,
WASHINGTON, *August 22, 1876.*

To the Board of Trustees of Public Schools, District of Columbia :

GENTLEMEN : I am directed by the Commissioners to inform you that, after careful consideration and estimates of the probable revenues and necessary expenditures of the District Government during the current fiscal year, ending June 30, 1877, they think it prudent, at present, to contemplate a reduction of say two months in the usual expenditures for the Public Schools for the year, and you will, therefore, make all your engagements, including the payment of money, accordingly. The estimated amount appropriated for the Public Schools for the current fiscal year is \$290,000. The amount expended the past year was \$384,341.40, of which there was expended for erection of buildings \$41,000, leaving for ordinary expenditures \$343,341.40.

The Commissioners request that you will carefully consider the question

of conducting the Public Schools upon the reduced basis of expenditures, \$290,000, and report to them your conclusions as to the most judicious plan.

Very respectfully,

W.M. TINDALL, *Secretary.*

On motion of Mr. Hovey a Select Committee of five, with the President as chairman, with power to act, was appointed. The chair appointed Messrs. Randolph, Brooks, Champlin, and Hovey as the Committee. The Committee addressed the following communication to the Commissioners :

WASHINGTON, August 23, 1876.

Honorable Commissioners of the District of Columbia:

GENTLEMEN : I am instructed by the special committee to whom was referred your communication of yesterday to report as follows :

Upon the basis of an allowance of \$290,000 for the next scholastic year the following estimates have been carefully made, having in view a school term of eight months instead of ten months, as heretofore :

Salaries of teachers for schools now established.....	\$187,872
Salaries of teachers for new schools to be established.....	5,200
Salaries for janitors and sweeps.....	18,100
Rent of school-rooms for schools heretofore established.....	24,333
Rent of rooms for new schools.....	2,000
Fuel and stove fixtures for schools heretofore established.....	16,600
Fuel and stove fixtures for new schools	375
General supplies, including stationery, books for indigent pupils, &c.....	10,000
Contingent expenses, including repairs, insurance, printing, payment of interest, &c.....	25,000
School furniture.....	5,000
 Total.....	 <u>\$294,490</u>

While these estimates exceed in the aggregate the sum set apart for school purposes it is believed that reductions can be made in some of the items so as to bring the actual expenditures for all school purposes within the sum named by you.

It is the intention of the School Board to so reduce the expenditures, if found practicable, and at the same time continue the schools for a full term of eight months. If, however, it shall be found to be impracticable to further reduce the contingent expenses, the school term will be shortened sufficiently to bring the expenses within the sum named. In short, we beg to assure the honorable Commissioners that the expenditures for school purposes of all kinds shall not exceed \$290,000.

The teachers and others subordinate to the School Board will be notified of your instructions, to the end that no engagement may be alleged for a time exceeding the terms prescribed in your communication.

I have the honor to be, very respectfully, your obedient servant,

W. W. CURTIS,

*President of Board and Chairman Committee.
Endorsement.*

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
WASHINGTON, August 25, 1876.

Respectfully referred to the Board of Trustees of Public Schools.
The general plan set forth in the within estimate for expenditures for

the Public Schools during the current fiscal year is approved by the Commissioners, and the scale of expenditures in no event to exceed the amount of \$290,000.

By order :

Wm. TINDALL, *Secretary.*

SEC. 2. COMMITTEES ON TEACHERS. They shall require evidence of the good moral character of all applicants for teachers' positions, and ascertain by examination their literary qualifications and capacity for the government of schools, and shall report, as soon as possible after each examination, the names and places of residence of all candidates found qualified for the several grades of schools, with such other facts as they may deem necessary for the information of the Board; and shall ascertain and report from time to time what rates of salary are due the several teachers, and when those rates are to be increased; and to them shall be referred all questions concerning salaries.

At the meeting of the Board, May 9th, 1876, Mr. Champlin submitted the following amendment:

Amend sec. 2 of art. 5 of the By-Laws of the Board, as follows: After the word "Board," in the seventh line of sec. 2, insert the following: "and shall make nominations of teachers at the end of each school year, and at other times, as vacancies occur."

Laid over under the rules.

At the next meeting of the Board, June 13, 1876, the Committee on Rules made the following report:

JOHN RANDOLPH,
Committee on Rules.

On the question of agreeing to the report of the Committee the yeas and nays were demanded.

Those who voted in the affirmative were—

Messrs. Brown, Brooke, Brooks, Champlin, French, Moffatt, Packard, Randolph, Ryder, and Smith—10.

In the negative—

Messrs. Detrick, Ferguson, Hovey, and Johnson—4.

Two-thirds not voting for the amendment it was rejected.

Mr. HOVEY moved to reconsider the vote by which the proposed amendment was rejected, and have that motion lay over until next meeting.

Agreed to.

At the meeting of the Board June 26, 1876, Mr. Hovey called up his motion to reconsider the vote by which the proposed amendment to section 2, article V, of the By-Laws of the Board was rejected.

The yeas and nays were demanded.

Those who voted in the affirmative were—

Messrs. Brown, Brooks, Champlin, Curtis, Detrick, Dyer, French, Hovey, Moffat, Packard, Randolph, and Smith—12.

In the negative—

Messrs. Johnson, Lloyd, Ryder, and Reyburn—4.

So the motion was not agreed to.

At the same meeting Mr. Hovey offered the following:

Resolved, That the nomination of teachers be now made to the Board by the several Sub-Boards for the position of teachers in their several districts for the ensuing year; and that these nominations be referred to the respective Committees on Teachers, who are hereby directed to report at an

adjourned meeting of this Board to be held on Friday evening next, as to the advisability of confirming said nominations.

Mr. LLOYD moved to amend as follows :

That the same lie over until the next regular or stated meeting.

Rejected.

The resolution was then adopted.

The several Sub-Boards then nominated, *pro forma*, teachers for the next school year.

At the meeting of the Board June 30, 1876, Mr. Randolph, from the Committee on Teachers of the White Schools, submitted the following :

The committee, to whom were referred the nominations of teachers made by the Sub-Boards of the First, Second, Third, Fourth, and Fifth Districts, at the meeting of the Board June 26, 1876, would respectfully report—

That in discharging the important duty assigned them, your committee, in order to get at the facts, have allowed full liberty of statement to the members of the different Sub-Boards present at the meetings of the committee.

As their duty was simply advisory, the committee have declined to pass upon any nominations of Sub-Boards other than those made in open Board at the meeting of June 26.

The committee believe that they are not required to make special adverse reports in particular cases. They have reported for confirmation the name of every teacher, and only those, in each district, in whose nomination both members of the Sub-Board of said district, when frankly consulted by the committee have concurred, and with whose qualifications and record as a teacher they have expressed themselves as satisfied.

All of which is respectfully submitted.

JOHN RANDOLPH,
GEO. W. DYER,
CHAS. E. HOVEY,
B. F. LLOYD,
FRED. W. MOFFAT.

Report accepted and nominations confirmed.

Mr. LLOYD submitted the following report, with several petitions of citizens asking retention of Mr. J. E. Thompson as Principal of the Fourth District :

The minority of the Committee on Teachers respectfully recommend the appointment of Mr. John E. Thompson as Principal of the Fourth District, for the following reasons :

First. His long and efficient services in the Public Schools of this city, embracing a period of more than twenty-seven years.

Second. The parents and citizens of that school district, with few exceptions, strongly desire and recommend his reappointment.

Third. There are no substantial complaints of his school administration in the district, no charges of inefficiency emanating from parents or pupils, and in the absence of such charges, sustained by ample proof, we decline to concur in his removal from those schools.

While we admit the legal right of the Board to omit the appointment of any teacher proved to be inefficient, long-established usage, beginning from the very foundation of our school system, has established the principle that our teachers should not be changed, except for manifest neglect of duty or inefficiency. A reversal of this principle must necessarily make our teach-

erships public offices, places of political patronage, which in the end must corrupt and demoralize our whole Public School system.

B. F. LLOYD.

Mr. CHAMPLIN moved to amend the minority report by substituting the name of S. J. Thomson as Principal and I. Fairbrother, Assistant, Male Grammar School, and presented a petition of a number of citizens asking a change of Principal of the Fourth District.

The report, with nominations and all the papers, were referred to Committee on Teachers of the White Schools.

At the meeting of the Board, August 8, 1876, Mr. RANDOLPH submitted from the Committee on Teachers of the White Schools of Washington and Georgetown, a majority report, (vide page 118,) and Mr. LLOYD, from same committee, a minority, (vide page 123.)

The report of the Committee on Teachers on the nomination for Principal of the Fourth District was taken up, and Mr. Ryder moved the adoption of the report of the minority of the committee.

After full discussion further action was postponed until to-morrow evening.

At the meeting of the Board August 9, 1876, the whole matter was settled by the Board, as follows :

The nomination for Principal of the Fourth District was taken up, and after discussion, the question recurred on the motion of Mr. Ryder to adopt the minority report.

The yeas and nays were demanded.

Those who voted in the affirmative were :

YEAS—Messrs. Johnson, Lloyd, Moffat, Ryder, and Reyburn—5.

NAYS—Messrs. Brown, Brooks, Champlin, Curtis, Detrick, Dyer, French, Hovey, Mitchell, Packard, and Randolph—11.

The report and recommendation of the majority of the Committee that “Mr. Thompson be not confirmed as Principal of the Fourth School District” was then adopted without division.

Mr. RANDOLPH, from the Committee on Teachers, reported the name of S. J. Thomson, for Principal of the Fourth School District, without recommendation.

Mr. LLOYD nominated Mr. A. T. Stewart for the position. Confirmed by the following vote :

YEAS—Messrs. Brooks, Curtis, Dyer, Johnson, Lloyd, Mitchell, Moffat, Randolph, and Ryder—9.

NAYS—Messrs. Brown, Champlin, Detrick, French, Hovey, Packard, and Reyburn—7.

In addition to the record as above presented, the committee respectfully submit for the consideration of the honorable Commissioners of the District the testimony and exhibits, accompanying this report, as the most appropriate answer to the various charges against the Board of Trustees, or individual members thereof, made in the resolutions of the public meeting referred to in the letter of the honorable Commissioners.

Respectfully submitted :

JOHN RANDOLPH,
GEO. W. DYER.
FRED. W. MOFFAT,
HENRY JOHNSON.

I concur with my associates in their conclusions, and desire to add in addition that I found no fact in the recorded action of the Board of Trustees, or elsewhere, which, in my judgment, at all justifies the charge of conspiracy and combination to effect the removal of Mr. Thompson, as set forth in the first of the resolutions transmitted to the Board by the Commissioners; on the contrary, I found that greater deliberation and publicity was given to the case of Mr. Thompson than is usual in similar cases, nor was a decision reached or vote taken until after a full discussion and consideration of all the facts by the whole Board. In response to the sixth and seventh resolutions, transmitted by the Commissioners, I further found from a careful reading of the testimony that during the investigation of this case, by order of the Board, by the Committee on Teachers of the White Schools, no member of said committee exceeded his legal or moral right in propounding questions to witnesses, or otherwise, in conducting the investigation. I hold it to be the right, as well as the duty, of a member to cross-examine witnesses in cases of investigation when the object is to get at the facts and establish the truth. Nothing more than this appears to have been done in this case by any member of the Committee on Teachers.

Respectfully submitted:

JOHN H. BROOKS.

Minutes
as follows:*

OFFICE OF THE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
WASHINGTON, August 24, 1876.

J. E. F. Holmead and others, committee:

GENTLEMEN: I am instructed by the Commissioners of the District to inform you that immediately on the receipt from your committee of the copy of the preamble and resolutions of the meeting of citizens of South Washington, held on the 14th instant, they sent a copy of them to the Trustees of Public schools with the request that they would make, as soon as practicable, any statement they might be pleased to make to the Commissioners in relation to the subject-matter of the resolutions.

In answer to this communication the trustees made a report to the Commissioners under date of the 23d instant, accompanying the same with copies of the majority and minority reports in the matter of John E. Thompson, and exhibits of the testimony, &c., taken by the committee of Trustees charged with the investigation of the matters and things relating to said Thompson. All these the Commissioners have considered, and I am directed to advise as the result.

1. They find no evidence of any illegal or improper conduct on the part of the Trustees in the matter of not reappointing John E. Thompson supervising principal of the Fourth School District; that in declining to make such reappointment the Trustees exercised the powers conferred upon them by law, and the Commissioners, even if they had the right to do so, (which they have not,) decline interfering with the Trustees in their appointments of supervising principals or teachers of the schools. They therefore decline making any order or suggestion to the Trustees to influence their action in filling the vacancy of the office of Supervising Principal of the Fourth District.

2. As to the recommendation for a reorganization of the Board of Trustees the Commissioners say that while they have full confidence in the ability and zeal of the present Board for the successful management of the

schools, and have seen with very great satisfaction the excellent results of their administration, they regard the matter of the reorganization of the Board, whether in whole or in part, as always an open question, to be considered and acted upon by them as the interests of the schools may require. Whether any change in the present Board of Trustees is desirable the Commissioners will carefully consider.

The Commissioners make no answer to the other subjects mentioned in your resolutions, as they do not call for their official action.

Very respectfully,

W.M. TINDALL, *Secretary.*

Official copy furnished for information of the Board of Trustees of Public Schools of the District of Columbia.

2. That Superintendent Wilson be, and is hereby, directed to instruct the principals of the several female grammar schools of Washington and Georgetown to designate by Monday next such of their pupils, who have been attending school during the whole or part of last year, as they may deem best qualified to enter the 9th grade—(the number from any one school not to exceed fifteen)—and to direct them to report at the Seaton School Building on Tuesday next at 9 o'clock A. 4. A list of such candidates from each of the said districts shall be transmitted by the several principals to Miss Lane, so as to be in her possession on Tuesday morning. If any district fails to send up any candidates

at the time specified, such district will be considered as having waived its right, and the examination will proceed.
All of which is respectfully submitted.

AUGUST 29, 1876.

Adopted.

Mr. LLOYD offered the following :

Resolved, That pupils and ex-pupils of the Public Schools forming themselves into literary and debating societies may have the use of rooms in the Public School Buildings under such regulations as the respective Sub-Boards may prescribe ; this resolution not to apply to the Seventh District.

Referred to the Committee on Property.

Mr. RYDER, from the Sub-Board of the Seventh District, reported back the petition of citizens requesting the new School Building in South Washington to be named the Ambush School, and submitted the following resolution :

Resolved, That the new School Building for colored children, in South Washington, corner of Delaware avenue and First street, be hereafter called the "Ambush" School Building in honor of the late Enoch Ambush.

W. P. RYDER,
JOHN H. FERGUSON,
HENRY JOHNSON.

and moved its adoption.

Mr. BROOKS submitted a minority report, as follows :

To the Board of Trustees of Public Schools :

GENTLEMEN : A sense of duty as well as gratitude compels me to differ with my associates of the Sub-Board of the Seventh District in their recommendation for a change in the name of the Randall School Building. At the meeting of the Board, December 8, 1874, Mr. Johnson reflected the united action of the Sub-Board in presenting the following resolution :

Resolved, That the school building for colored children, located at Delaware avenue and First street southwest, be known as the "Randall School Building."

At this meeting highly eulogistic remarks were made by Messrs. Johnson, Ryder, and Brooks, and upon their representation the Board unanimously agreed to name the building "Randall School." The people residing in South Washington, many the recipients of Miss Randall's favors when alive, and others conversant with her many kind and generous acts, fully appreciated this gracious act of the Board in recognition of a noble and well-spent life. The Superintendent of the Colored Schools also recognizing the propriety of this act, thus spoke of Miss Randall in his annual report :

"Change of teacherships during the year was rare. One sad record, however, was made. In the death of Miss Eliza G. Randall, principal of the school then known as the 'Delaware Avenue,' but now as the 'Randall,' by *special action* of the Board, the schools sustained a great loss. Her ap-

Sub. 36
1874-1

pointment to a teachership in them was made in September, 1867, and during the seven years' connection she invariably rendered, in whatever position placed, satisfactory and efficient service. In the last year or two she seemed to suffer much from affection of the lungs. All efforts on the part of friends and school officers to induce her to give up her charge were unavailing, preferring, as she said, 'to die at her post,' which she literally did. After the regular school hours on Friday, December 4, she returned to her residence, but before Monday, the following school day, was a corpse."

It will be observed that the name of the building was changed from a street and not from that of a person who had been thus honored. I believe this is the only instance in which such a recommendation has been made to this Board.

I have great respect for the petitioners, and if the building had no name, and did not involve a change, or if both names were presented, with the request of these citizens, I would no doubt favor that of Mr. Ambush. But under the circumstances I do not think it proper and expedient to make this change.

The late Miss Eliza G. Randall was one of that noble band of pioneers who followed closely the armies of the Union and rescued the sick, fed the poor, clothed the naked, and taught the ignorant and recently emancipated slave. She solicited the unenviable post of founding a school in this part of South Washington when it was a common, with only improvised huts for habitations. The people were poor and just out of slavery; she, through her many friends in the North and her own liberality, procured clothing and medicine, and so endeared herself to all who made her acquaintance and especially the school officers, that she was urged to continue her great work. Room after room was upon her requisition added, until four were added to the original shanty, and five schools through her efforts established. In recognition of her services she was made principal, and held that position until her death. If there is a name that should be honored by us, one that should win our admiration and gratitude, especially those of us who in the past were deprived of every educational advantage, that name is Eliza G. Randall.

Miss Randall was also one of that noble band of which Sumner in the Senate and Stevens in the House and Lovejoy upon the virgin soil of the West were the representatives. She was one of that band of angels on earth who gave her life to her Master's service.

I do not desire to rob Mr. Ambush's memory of a single honor, and, as I have said, had this building never been named I should at the request of the petitioners vote to name it "Ambush School," but having before made known my views about Miss Randall's worth, and the Board having acted upon our united request and named the building "Randall," I hope the Board will make no change.

Respectfully,

JOHN H. BROOKS.

And offered the following as a substitute for the resolutions submitted by the majority :

Resolved, That the name of "Randall School" be retained, and that no change be made.

Adopted by the following vote—

YEAS—Messrs. Brown, Brooks, Champlin, Curtis, Dyer, French, Hoy, Moffat, Packard, Randolph, and Smith—11.

NAYS—Messrs. Detrick, Ferguson, Johnson, Lloyd, Mitchell, and Ryder—6.

Mr. RANDOLPH submitted the following, which was agreed to:

Resolved, That the Public Schools be opened on Monday next, September 4, 1876, and that in pursuance of the recommendation of the honorable Commissioners they be kept open for a period of eight months, unless otherwise ordered; that the organization of the schools shall be conducted in the following manner, to wit:

1. Tickets of admission shall be issued by the principals of the several school districts (excepting the Fourth District) at their offices, from 8 to 10 o'clock P. M., and from 5 to 7 o'clock P. M., on the 30th and 31st of August, and 1st and 2d of September, of which fact the report of these proceedings in the daily papers shall be due notice.

2. Each principal shall keep an account of the number of tickets issued by him to each school in his District during the aforesaid days.

3. No ticket shall be issued on Monday, the 4th of September.

4. On Monday, September 4, each teacher shall receive only those pupils actually on the roll at the close of the last school year, and shall retain them in session on that day until the arrival of the Principal to make the transfers and complete the organization of the school.

5. Each teacher shall report in person to the Principal, at his office, on Monday, by 5 o'clock P. M., the number of vacancies in his or her school, of which a record shall be kept by the Principal.

6. On Tuesday, September 5, each teacher shall admit those presenting tickets to the extent of completing the complement of 60 pupils, and no more. The number of tickets received in excess of this complement, or the number of vacancies still existing, shall on the same day, (Tuesday,) immediately on the adjournment of the school, be reported without fail, by each teacher, to the Principal at his office.

7. At 6 o'clock P. M., Tuesday, September 7, each Sub-Board shall meet at its office to hear the report of the Principal as to the progress made in the organization, and to take any steps required to perfect the same.

8. On and after Tuesday, September 5, tickets of admission shall be issued to applicants on each school day, by the Principal, at such hour as he may designate.

9. On Saturday, September 2, the teacher of each District shall attend at such places and hour as shall be designated by the General Superintendents, to receive from them full instructions as to the details of the organization of the Schools of their respective grades.

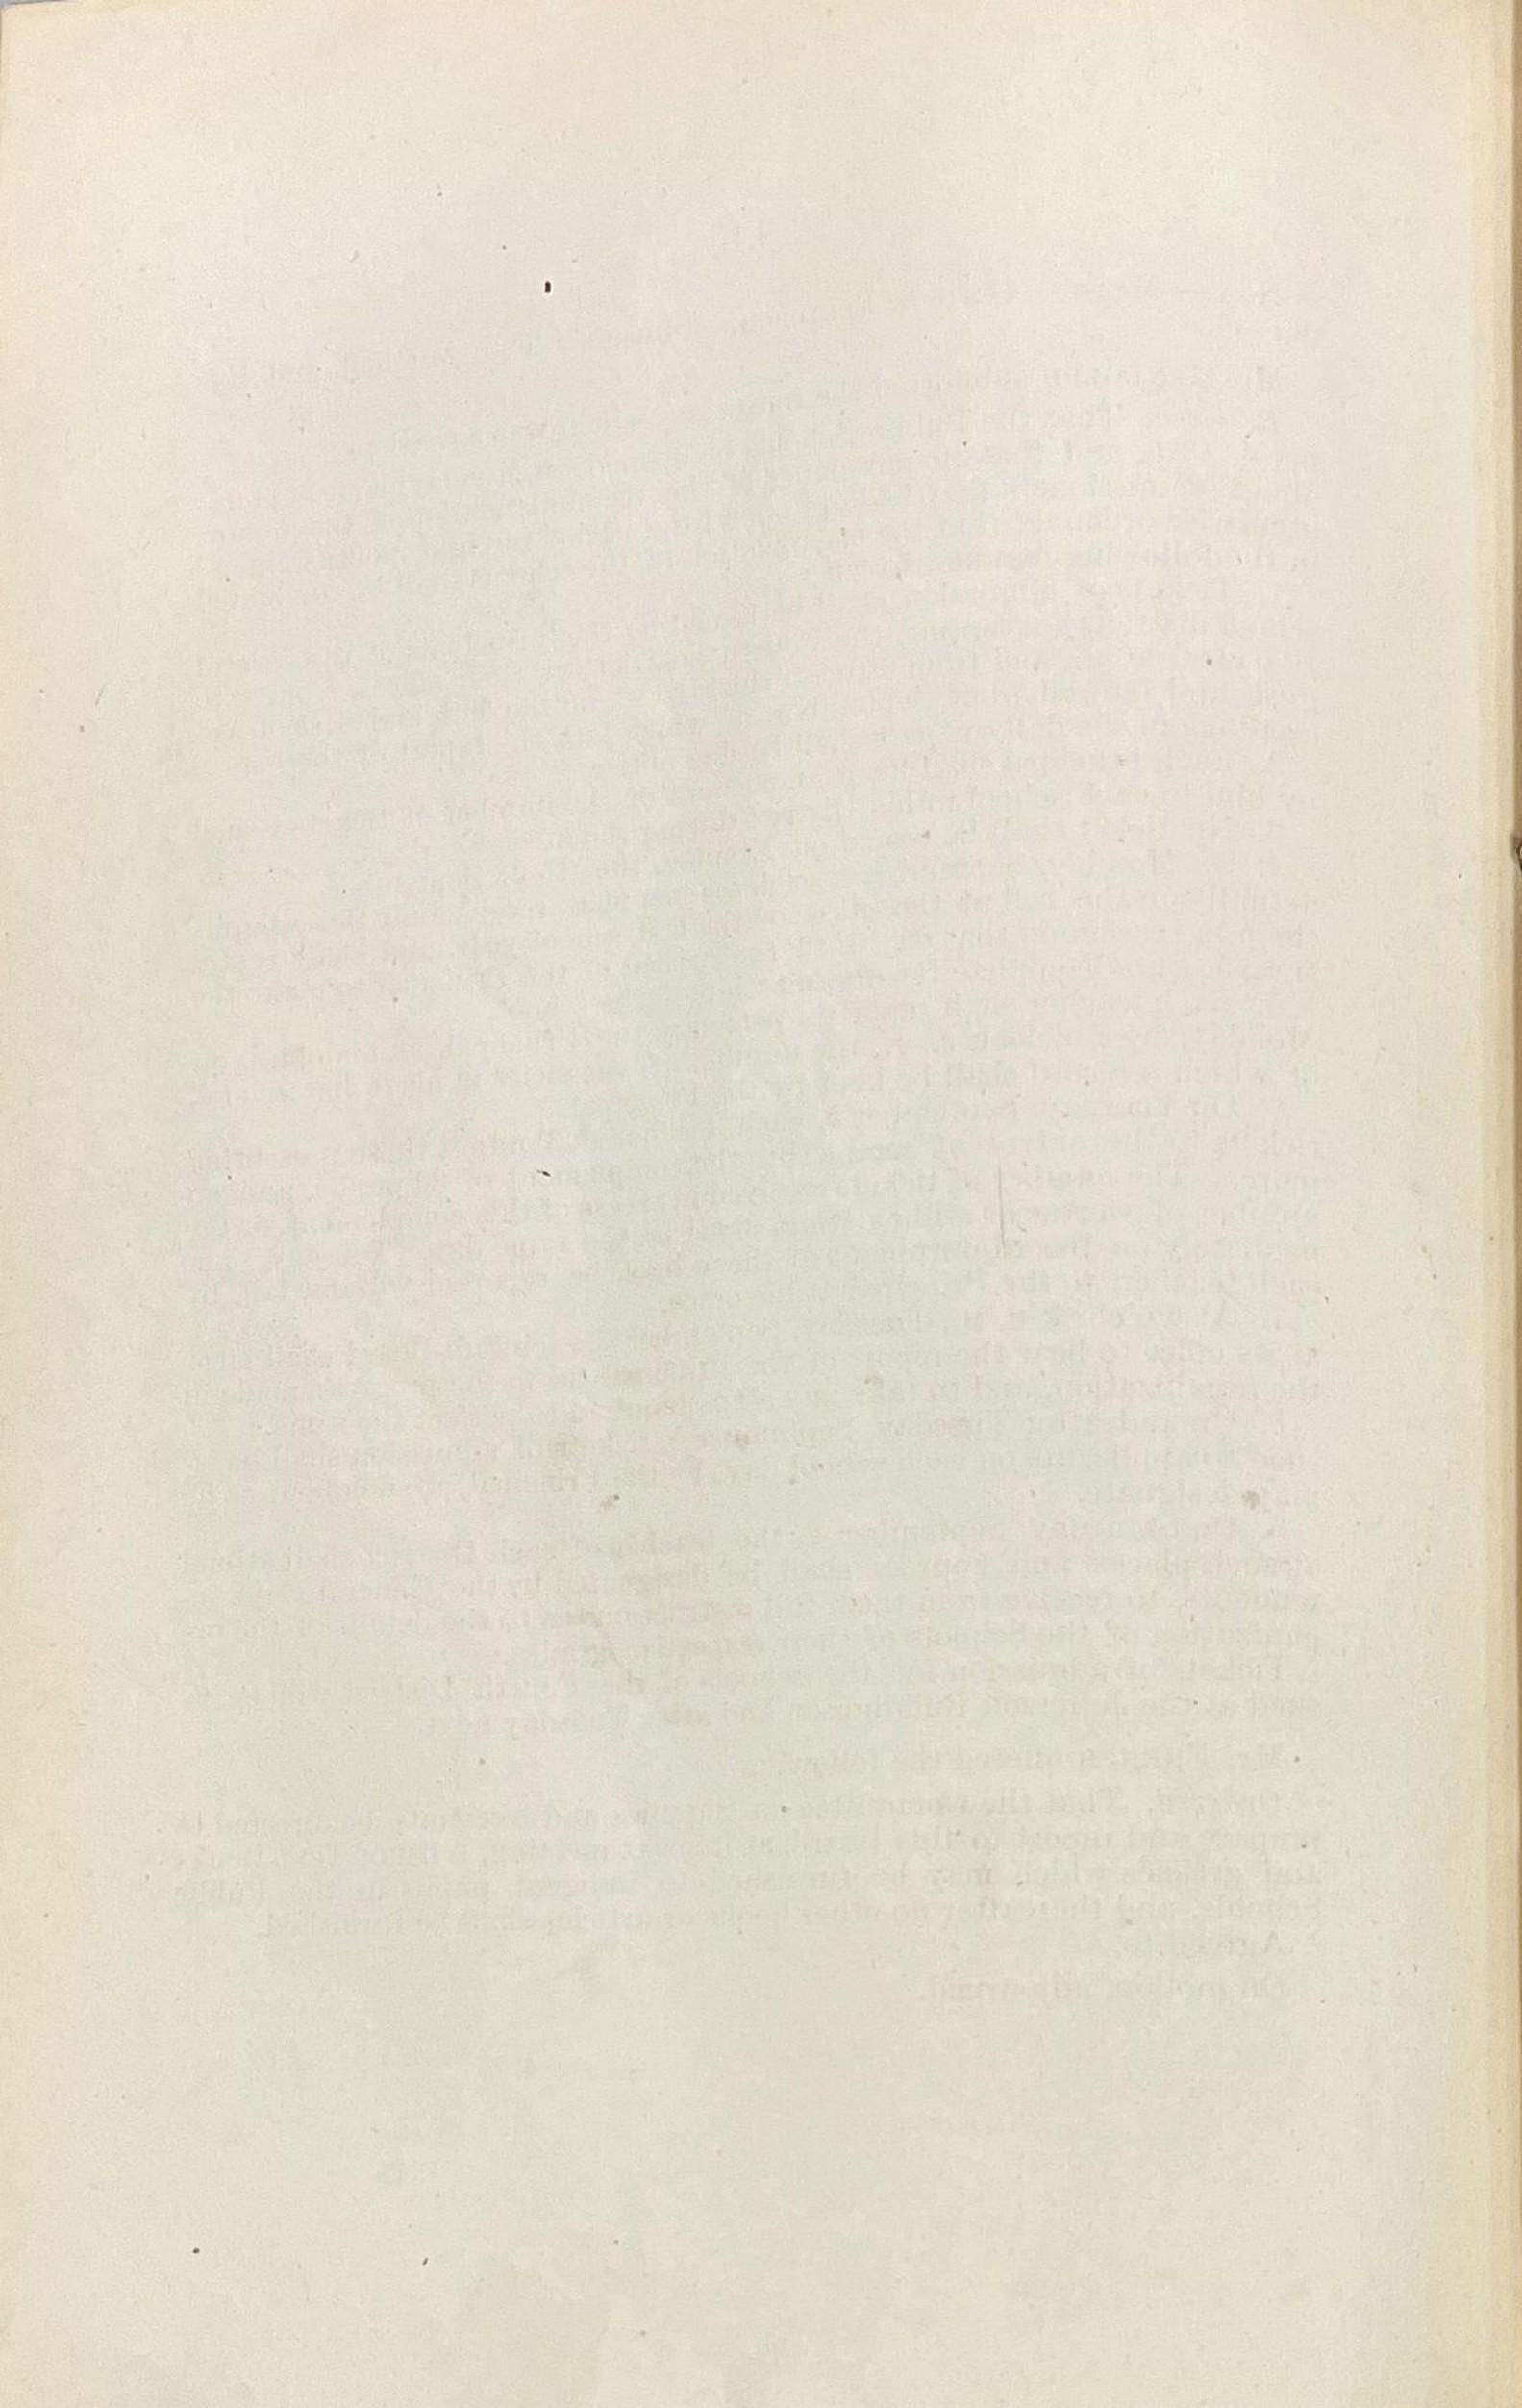

Tickets of admission for the schools of the Fourth District will be issued at the Jefferson Building on and after Tuesday next.

Mr. FRENCH offered the following:

Ordered, That the Committee on Supplies and Accounts be directed to prepare and report to this Board, at its next meeting, a list of Text-Books and articles which may be furnished to indigent pupils in the Public Schools, and thereafter no other books or articles shall be furnished.

Agreed to.

On motion, adjourned.
